The Magazines.

Gildenfenny has *Harper* and the leading agazines for October.

IN case Fitz John Porter obtains a new al, James T. Brady will be his counsel, and a stinguished rebel officer; probably a General— principal witness. The application is in the nds of the Attorney General.

THE Philadelphia papers are complaining at bad meat is offered in that market. One the causes specified is that animals in transit "frequently remain without food or water one to three days." Protective legislation invoked.

THE Richmond *Enquirer*, on every chance at occurs, exhorts its readers to let politics one, to attend to their material interests and wait the turn of events; but it does not follow own counsel so far as to introduce much of ything into its editorial columns, except polcs, and that of the worst possible kind.

IN Cincinnati the two enterprising and sterg Republican journals report the speeches ade by Republicans and Democrats on the ump with equal fullness, so that both sides y be heard. This is not only independence d enterprise, but evinces a degree of confince in the intelligence of the people to disminate between right and wrong, that is editable and worthy of imitation. The canss in Ohio is very active, and, on the Republan side, conducted with ability.

WHAT a strange contrast is presented in the uthern States! Our military officers at their ferent stations write about the sufferings of people from sickness, as they formerly did their sufferings from hunger, and not unfreently accompany their reports with appeals help from the North. Yet the bitterest tone contempt and hatred is indulged in, by some the local papers, against the North and every ng in it, and even against the very officers o are interesting themselves for the relief of prevailing distress. This strange contrast ggests inferences easily drawn, with regard the moral principles and the grade of civilition in the two classes of persons.

HENRY A. WISE has said and done a great any absurd and wrong things in his day. But a letter of his to General Grant about two ars ago, we find some sentences that are orth repeating. He says, "the chief consolan I have in the result of the war is that avery is forever abolished." And again, ong before the war ended I had definitely ade up my mind actively to advocate emancition throughout the South. I had deterned, if I could help it, my descendants ould never be subject to the humiliation I ve been subject to by the weakness if not the ckedness of slavery." Still further, he says emancipation, although not approving of the ode of it, "I unfeignedly rejoice at the fact, d am reconciled to many of the worst camities of the war, because I am now conced that the war was a special providence of od, unavoidable by the nations at either exeme, to tear loose from us a black idol from hich we never could have been separated by y other means than those of fire and blood, vord and sacrifice." This is abolitionism of a rong type. Mr. Wise must rejoice in the proess and improvement of the freedmen since e date of his letter. It would not be strange the remembrance of the John Brown affair d some influence on Mr. Wise's sentients.

The "Boulevard Pavement."

The Cincinnatians are putting to the test hat is called the Boulevard pavement, in order compare its merits with those of the Nicolon. The new pavement is made of three subances—asphaltum, oxide of iron and ashes, the tter substances being obtained at the iron furaces. It is claimed that this pavement will ot crack or break under the stoutest blows, but at it can be cut into sheets or blocks and reoved, and afterwards replaced and cemented firmly as before. When finished it has a nooth, sanded surface, of a hard and durable haracter. It is put down in small sections and ardened for travel in twenty-four hours. The ost is said to be two dollars per square yard or street pavement, while for sidewalks it can e put down at from seventy-five cents to one ollar per square yard. How such a pavement ould do in Pittsburgh, a practical test would lone tell, but it certainly would make an excelent covering for roads leading out of the city. n Pittsburgh we have an abundance of mateal at hand to test the practicability of this avement, and to put it down with extraordiary cheapness.

The Situation at Washington.

The Washington correspondent of the Chiago *Tribune* agrees with other writers that no mmediate change is likely to take place in the Cabinet; and the report appears to be equally vell grounded that Mr. Johnson will attempt o further "ground and lofty tumbling" till he Pennsylvania election has taken place. Should the result be such as can be construed nto an indorsement, he will go ahead with enewed recklessness, in view of which prudent men have many apprehensions. As to Grant, it is known that the President fully ealizes that he is as crooked a stick as Stanton, and that he has made nothing, but lost, by the hange. But it is questionable, first, whether he dare turn him out, and, second, whether he an turn him out. Mr. Seward is hated by the Democrats, but the President must retain him s long as he himself professes to be governed y honor or gratitude. Mr. McCulloch is not near as much of a Johnson man to-day as he vas ten or twelve months ago, but he makes o special opposition to the President's general political course. Messrs. Browning, Welles, Randall and Stanbery are as subserient to the President as any other four men e could find. The pressure against Mr. Seward and Mr. McCulloch is unquestionably trong, but as yet the President does not see ny way in which he can better himself by naking a change.

A LONDON journal makes a literary estimate s follows:—"If twelve men were employed or twenty-four hours per day, (allowing neither ime for sleep nor meals,) in reading, at the rate of eight words per minute, they would barely keep up with the volumes published in London alone. In this estimate tracts and sermons are not included, but if magazines, reviews, and newspapers were added to the task, it would require upwards of forty men."

Civil Process in North Carolina.

Writs Executed Without Obstruction.

Gen. Hancock and the Fifth District.

Rumored Meeting of Republican Governors.

Special Dispatch to the Commercial.

WASHINGTON, D. C., September 20, 1867.

Execution of Writs in North Carolina.

The Attorney General's office received information to-day from the Second Military District, showing that while Gen. Canby had not in any official order modified or suspended Gen. Sickles's Order No. 10, he had nevertheless directed his officers not to interfere with the process which had issued from the United States courts in North Carolina. The United States Marshal was therefore proceeding to execute the writs to him directed, and in one instance had already sold property to satisfy a judgment obtained by a Northern creditor. Owing to the unsettled affairs, the Marshal's sale brought just one-tenth of the appraised value of the property. A petition is circulating in North Carolina asking General Canby to also prohibit the execution of these judgments, on the ground of the great hardship it was working among the people.

General Hancock.

It appears that after all Gen. Hancock is not going to assume at once the command of the Fifth Military District. At the suggestion of General Grant, he, to-day, made application to be allowed to avail himself of the order issued a short time since, giving officers ordered to sections where the yellow fever is prevailing to the 13th of October to report for duty. Gen. Hancock will probably not assume command for the present. This fact, on becoming known at the White House, excited some comment.

Sheridan and Sickles Arrived.

General Sickles arrived this morning and General Sheridan came this evening. They are spending the evening with Governor Fenton, of New York, and General Hancock. General Sickles reported to General Grant to-day, and Sheridan will do so in the morning. The presence of these officials attracted large crowds at the hotels, but no demonstrations were made. A serenade is in contemplation to Sheridan.

The Cabinet.

There was a long Cabinet session to-day, all of the members being in attendance but Gen. Grant and Secretary Browning.

Meeting of Governors.

Governor Chamberlain, of Maine, arrived tonight. The visit of several Governors here is said by some to refer to some contemplated meeting of all of the Republican Governors, but Governor Fenton knows nothing of any such meeting.

WASHINGTON, September 20, 1867.

PERSONAL.

Major General Sickles this morning had an interview with Gen. Grant.

Gen. Hancock will leave Washington in a few days for St. Louis, but will not for some weeks proceed to New Orleans.

ROWDYISM.

General Emory has issued a circular calling upon regimental and company officers to use the utmost vigilance to guard against the recurrence of the rowdyism and disorder of the past few days, which has resulted in two cases of unprovoked murder. Washington Topics and Gossip.

THE PRESIDENT IN MILDER TEMPER.

The New York *Times* special says: As an indication of the President's latest temper on the situation of reconstruction affairs, witness the following abstracts of his views as recently expressed in conversation with certain politicians who called upon him for the purpose of urging him to re-open registration in the South. He informed them that he could not do so without incurring a certain risk of impeachment, and admitted that the reconstruction laws confer on the District Military Commanders sole control over registration. His only power of interference was the removal of commanders when they failed to execute the laws in accordance with the views of their legal construction. He admitted that the District Commanders are acting under direct authority of Congress in the performance of a civil duty, and that if he should attempt to assume power as Commander-in-Chief to control the time of registration and holding election, they would have the right to refuse to obey his orders, and they would not be amenable to punishment for military insubordination if they did so. He stated that the recent promulgation of the Amnesty Proclamation threw upon Congress the onus of depriving legally qualified voters from registry and voting. He hoped that the Southern people would appreciate it in that light. If any of the pardoned masses, he continued, attempt to register and are refused, the Courts are open to them, and they can compel the military to allow them to register through the Courts. If they do not do so, he concluded the fault of their disfranchisement is with Congress, as he claimed that he had done all that he could do to restore them to their right.

THE WAR OFFICE REFUSED BY GENERAL MCCLELLAN.

It has transpired that President Johnson immediately subsequent to the removal of Secretary Stanton, tendered the War Office to Gen. McClellan, and that the offer was promptly refused by that gentleman. In this connection, it will be interesting to know that the efforts to obtain the appointment of General Steedman have not yet been abandoned, although the premature publication of Mr. Greeley's letter recommending him for the office has blocked the game, as it was intended to be used only for the purpose of influencing the Senate when the nomination was sent to it for confirmation.

GENERAL GRANT'S ECONOMY.

General Grant enforces economy in the expenditures of his department with an unsparing hand. He has recently ordered the members of his staff to turn in all the public property around headquarters—horses, wagons, etc.—and the staff gentlemen who have always been very circumspect and *modest* in matters of military display, are now cut off from Government transportation as effectually as any private gentleman.

FITZ JOHN PORTER'S APPLICATION.

It is said one of the letters filed on Fitz John Porter's application for a new trial, is from an ex-rebel General who, in speaking of the rebel movements, says he was ready for an attack at eleven o'clock, A. M., August 29th, and we were all particularly anxious for battle after twelve o'clock, M.—Lee more so than any of us. Artillery could not be handled upon the ground on our right, and it was difficult to handle infantry in that position. If you had attacked us at that time during that day, your troops would have been destroyed—that is, if we had been attacked by less than twenty-five thousand. One point made against Porter on trial was that if he had attacked the rebels by five o'clock that day the enemy would have been defeated. His force was about eleven thousand.

The streets surrounding the jail are blocked by the crowd, who are clamorous for his execution.

From China and Japan.

SAN FRANCISCO, September 19.—The news from China and Japan is generally unimportant. The North China *Herald* gives an account of the cruise of the Shenandoah in search of a suitable port for an American establishment on the west coast of Japan. General Van Valkenburg accompanied Commodore Goldsborough. The cruise extended from July 12th to the 24th. Numerous places were visited, having from three to thirty-five thousand inhabitants. The people everywhere were very friendly, sometimes timid. What the result of the expedition was it is not stated, except that the point designated in the treaty was not adapted to foreign commerce.

The bark Milan cleared from San Francisco to-day for Sitka, with a cargo of building material for the Government.

SAN FRANCISCO, September 19.—The following dispatch from Shanghai, dated August 16th, was delayed in the postoffice in this city by a clerical blunder:

The continued drought in North China is ascribed by the anti-foreign party at Pekin, to the proposal of the Tsing C Yamen to employ foreign instructors in Astronomy and Mathematics. The Emperor has received numerous petitions to prohibit such an invasion of ancient customs. Prince Hung, the regent, is abused and has offered his resignation, but it was not accepted.

A million taels are to be raised by taxation for a levy to supply the army of North China, and assist the sufferers from the drouths.

The Senatorial districts as established by State laws are adopted for the purpose of representation in the Convention, which will consist of one hundred and sixty-nine delegates. The instructions are generally the same as issued for the election in Alabama.

Aid for the Sufferers in New Orleans.

CINCINNATI, September 20.—In response to a telegram from the Howard Association in New Orleans asking assistance, the Chamber of Commerce donated $500, and appointed a committee of sixteen to solicit subscriptions from citizens generally for the same object. Measures will be taken immediately to carry out the object. It is said a match for a prize fight has been made between Jimmy Elliott, of Cleveland, and Mike McCool, of St. Louis, for $2,500 a side, the fight to take place within fifty miles of Cincinnati, some time in November. Wm. M. Davis has challenged another pugilist, Charlie Gallagher, both of Cleveland, to fight for three hundred or one thousand dollars a side.

The Canton, O., *Republican* says:—Late Washington letters keep intimating that Mrs. Lincoln is to be married to a gentleman of Canton, Ohio. We are not posted as to names, and are therefore not prepared to say how much credence ought to be given to this very tantalizing rumor.

The Yokohama *Herald* reports frequent murders in Nagasaki, Japan, and the existence of much apprehension in consequence.

A Vessel Saved by Throwing Oil Upon the Sea.

A correspondent of the London *Shipping and Mercantile Gazette* says he saw a practical proof of the truth of the old adage that oil would calm the troubled waters. The event occurred on a voyage from St. Johns, N. F., to Bristol, England. The vessel was loaded with oil and blubber, and experiencing severe weather, was disabled and thrown on her beam ends. The sea being very heavy, it was suggested that oil would smooth it; and a hogshead was broached in the hold, and the oil pumped into the ocean with the water made by the vessel leaking. The effect was marvelous. The vessel was drifting to leeward, and to windward the sea appeared as though there was a calm, and in spite of a tremendous gale, the sea never broke on board for the eight days the vessel lay to. When the effect was observed, the oil was not spared, and the vessel reached Scilly, though so crippled as not to be worth repairing. If this be true, it must greatly diminish the dangers of whaling, and a few barrels placed on board every other seagoing craft might prove the salvation of some in stormy weather.

A WASHINGTON dispatch says: Letters received here from the South show that many of the people of that section, including certain newspaper editors, actually anticipate a reopening of the civil war when Congress meets. They argue that their paroles having been given not to fight against the government they cannot take up arms against the North unless under the leadership of some recognized power in the United States, and they expect that the President will furnish that leadership in the conflict which they confidently predict will occur directly following any attempt at impeachment.

RAILWAY MATTERS.

THE MAHONING ROUTE TO CLEVELAND.

The Mahoning *Courier* says: We learn that it is the purpose of the railroad companies interested, on the return of General Cass, President of the Pittsburgh, Fort Wayne and Chicago Railroad Company, who is recuperating on the western hunting grounds, for the benefit of his health, to place a couple of through trains on the road between Cleveland and Pittsburgh, via Youngstown, about the middle of October. As the through trains will not interfere with the local trains now running, the arrangement will be advantageous to our city, giving us three trains daily to each of the cities named. The trains will probably leave each city respectively at 9 o'clock, A. M., and meet at this place about noon, arriving at their destination about 3 P. M. This route, being an air line between the head of navigation on the Ohio and the waters of lake Erie at Cleveland, and shorter by about eighteen or twenty miles than any other competing line, is destined to be the popular one, and will be advantageous to the Valley, and especially to Youngstown, beyond conception.

PROSPERITY OF THE LAWRENCE ROAD.

This short road between Mahoningtown and Youngstown, is already earning money for the stockholders. "This," says the Mahoning *Courier*, "is certainly very cheering, as, besides the dividends to stockholders, the road is proving an important addition to the material growth and prosperity of the Mahoning Valley. Four passenger trains run over the road daily, between this point and New Castle, and several freight, coal, limestone and ore trains are kept constantly running. The amount of rolling stock at the command of the company is, however, quite inadequate to the demands for carriage; but the want is to be promptly met, one hundred cars having been ordered to be built with the greatest dispatch, by the Pittsburgh, Fort Wayne and Chicago Railroad Company, at their car works at Fort Wayne. The increased demand for cars to carry the vast quantity of coal, limestone and ore used along the route, and at both termini has made it an imperative necessity."

THE NEW LISBON RAILWAY.

The Wellsville *Union* says: The New Lisbon folks seem to have trouble with their railway. The engine and cars have been taken off and returned to the Cleveland and Mahoning road. The Pittsburgh, Fort Wayne and Chicago Railway Company has agreed to furnish an engine and cars, and the road is expected to be soon in operation again. We are afraid that about the time the roads get bad and access to the county-seat is next to an impossibility, except by rail, the railroad will play out for good.

PACIFIC RAILWAY CONVENTION.

The railroads already "making" for Omaha, or for a connection with the Pacific railroad west of that point, are: The Chicago, Rock Island and Pacific, the Burlington and Missouri, the St. Joseph and Council Bluffs, and the St. Louis Northwestern, all to Council Bluffs and Omaha. On the north is the Dubuque and Pacific, for a more western connection via Sioux City, and the extension of the Minnesota Valley, via Spirit Lake and Sioux City. On the south, the American Central, via Keokuk and Brownsville, to Columbus, Neb., the Atchison road to Fort Kearney, &c. In all, with the Chicago and Northwestern, already completed to Omaha, five Eastern lines will have their terminus at that point, and at least four other lines will tap the Pacific main trunk within 150 miles of Omaha.

NEW PROJECT.

The Waynesboro', Franklin county, Pa., *Record* says that the Mt. Alto Iron Company having secured a charter and determined to build a branch railroad from Scotland to their works, the propriety of extending the road via Quincy to Waynesboro', is now being agitated. The distance from that place to Funkstown is about six miles, and it is said the grade would be easy and the route altogether a practical one.

TIME BETWEEN BALTIMORE AND WASHINGTON.

The Baltimore and Ohio Railroad Company are straightening their line between the Relay House and Baltimore so as to avoid that long double curve that winds around by the brickyards, near the Spring Gardens, and turning northward again, crosses Gwynn's Falls, at the Carrollton viaduct. The distance gained by this operation will be nearly two miles, and the time gained as well, by shorter distance as straighter line, will be some thirty minutes. The road is nearly completed, and will be in working order next month, when the time between Baltimore and Washington will be reduced to sixty minutes.

The Harrisburg *Telegraph* is responsible for the following snake story: Mr. Peter Altmire, of our city, one day last week, while gunning in the mountains back of Newport, came in contact with a black snake over thirty feet in length. His snakeship carried his head four or five feet from the ground. Mr. A. fired at the monster while passing him, and the shot rebounded as if he had been struck with an India rubber ball. Other citizens were with Mr. Altmire, and vouch for the truth of the above. The snake after being shot at, ran down the side of the embankment, causing a fearful crash of everything with which he came in contact.

THE Abbe Migne's vast publishing house near Paris is the subject of an interesting article by Rev. Dr. McClintock in *The Methodist Quarterly Review* for July. It has been established only twenty-one years, and has reached a manufacturing capacity of two thousand quarto volumes every twenty-four hours. Among the works produced here is a complete course of the Greek and Latin Fathers—a library in itself, and the editions are valuable in a critical point of view. Copious indexes, both alphabetical and analytical, unlock to every inquirer the contents of these tomes, which number of Latin two hundred and twenty-two, and for the Greek one hundred and sixty-seven. They are uniform in size, imperial octavo, and are a marvel of cheapness. By the set, in paper covers, the Latin Fathers cost only five francs the volume; the Greek Fathers, with a separate Latin version in eighty-four volumes, cost eight francs each. For half-sheep bindings, thirty-five cents extra are charged. But this is only a part of the abbe's undertaking, and might seem not so wonderful if compared with the statistics of other publishers. He has issued, also, a "Complete Course of Commentaries on the Scriptures," twenty-eight volumes, imperial octavo; a "Complete Course of Theology," to match the foregoing in number and size; the evidences of Christianity, or "Demonstrations Evangeliques," containing the entire works of one hundred and seventeen writers; and three theological encyclopædias, of which the first was in fifty-two volumes, at 312 francs, in paper; the second in fifty-three volumes, at the same price; the third, now just being completed, and still theological—proving, although positively advertised as "the last," that there is no end to theology—in sixty volumes. Upon these are yet to be mentioned a "Church History," from the Creation to Pope Pius IX., twenty-one volumes; and a "Collection of Christian Orators," one hundred volumes, embodying the best utterances of two hundred and fifty preachers, with a history of preaching from the beginning. The great libraries of all countries are, of course, reliable customers for such solid works as these, which have proved under prudent management a fortune to the Abbe.

Quiet Restored in Manchester

Escape of Fenian Prisoners in Ireland.

Movement on Rome to Take Place To-Morrow.

Note From Count Bismarck.

The Manchester Riot.

MANCHESTER, September 20.—Everything has been quiet all night, but the police have been vigilant to prevent the escape of any of the rescued prisoners. All the avenues of exit were closely watched. During the night several persons supposed to be implicated in the riot were arrested, some in their beds. It was reported early this morning that Kelly was recaptured, but it lacks confirmation. It is a matter of surprise how speedily the mob was dispersed and quiet restored after the rescue was effected. The outbreak has taken the Government by surprise. A strong force is being mustered to prevent further demonstration. One of the wounded policemen, it is reported, died last night. It is impossible to tell how many lives were lost in the affray. Several persons badly injured, and probably dead, were carried off by the mob. It is thought the mob had friends in jail who kept them informed of the movements of police and prisoners.

Escape of Capt Osborne.

DUBLIN, September 20.—Capt. Osborne, one of the Fenian prisoners who made their escape from the jail at Clonmel last night, has not been recaptured to noon, though the jail guards started in immediate pursuit. The police are searching for him in every part surrounding, where it is supposed he is still concealed.

The Movement on Rome.

LONDON, September 20.—The preparations of the Party of Action in Italy in the revolutionary movement on Rome are about completed. It is rumored Sunday next is fixed by Garibaldi as the day upon which the long deferred attempt is to be made.

Note from Bismarck.

LONDON, September 20.—Count Bismarck recently addressed a circular note to the diplomatic representatives of Prussia in regard to the conferences of Napoleon and Francis Joseph at Salzburg. The account has just been published, and is the principal subject of editorial discussion in the English and Continental newspapers. Bismarck says Prussia is willing to accept the representations made by France, that the conference at Salzburg should be regarded as a pledge of peace. He also makes many allusions to the union of the German States. The London journals comment favorably on this note, regarding it as pacific and tranquilizing.

The French press, while seemingly disposed to find little fault with what Bismarck says, denounces the circular because in all its reference to German unity it completely ignores the treaty of Prague, and omits all allusions to the obligation under which Prussia rests to fulfil the stipulations of that solemn compact.

Credit Mobilier.

PARIS, September 20.—As the day for the annual statement of account of the credit mobilier approaches, much disquietude is apparent on the Bourse. The operations of the Credit Mobilier exercise a powerful influence upon monetary affairs in France, and anxiety to know with exactitude its conditions, is correspondingly great.

MANCHESTER, September 20.—Everything is quiet here. The rioters appear satisfied with their success, and there have been no more disturbances. No traces of the rescued prisoners, Kelly and Deasy, have been discovered, and it is thought they have succeeded in their escape from the city. The name of the policeman killed yesterday was Brett. Arrests continue of rioters. Among those in custody are Wm. Allen and Michael Larkin, charged with murdering Brett.

LONDON, September 20, Evening.—A dispatch from Bradford reports that Kelly and Deasy were seen in that city this afternoon, but the police failed to arrest them, and they again disappeared.

Difficulty with Negroes.

SAVANNAH, September 20.—Col. E. Bucks and his overseer, Mr. Lancaster, of Camp Pickens, Charlon county, Ga., had a difficulty with a negro working on the place, which resulted in shooting the negro in the thigh. Next day, Sunday, two armed negroes went to the house to demand satisfaction of Lancaster. Several shots were exchanged, one of the negroes being killed and the other wounded. Lancaster was badly wounded, and had his horse killed. Lancaster and Mr. Nugaser left on Monday for St. Mary. An armed band of negroes seized them. Nugaser escaped by swimming the river, but Lancaster was left in the hands of the negroes, and it is feared they killed him.

The California Election.

SAN FRANCISCO, September 16.—Returns from forty-eight counties, partly official, give Haight forty-two thousand three hundred; Gorham, thirty-three thousand seven hundred and forty; Fay, fifteen hundred and fifty-eight. The returns of the vote for Congressmen have been received from few counties only. It will not be known fully for several days, but it is certain only one Union candidate (Higby) is elected. The Union majority in the Senate is now positively known to be four—enough to prevent the repeal of the registry law or the division of the school fund, which are favored by a large portion of the Democratic party.

From Raleigh, N. C.

RALEIGH, N. C., September 20.—The *Register*, edited by Daniel R. Goodloe, and recognized as the organ of the Republican party in the State, denounces the recent radical convention bitterly, and excommunicates Holden and his coadjutors.

The Constitutional Union men will hold an immense mass meeting on the 27th inst. All the most influential and prominent citizens have signed the call.

From New Orleans.

NEW ORLEANS, September 20.—General Mower has issued an order similar to that of General Canby regarding Confederates self-exiled, since returned and now subject to parole.

The interments from yellow fever for the twenty-four hours to this morning were sixty-six.

From geological researches iron ore is found to exist in Tuscarawas county. There are four workable beds, separated from each other by layers of sandstone, shale, &c. They dip slightly to the east or southeast, so that they can be worked over a large area before they sink beneath the water courses. There are two kinds of ore, both of which are now being smelted at the Dover Furnace—black band, and shell ore.

CITY MATTERS.

PITTOCK, Fifth street, opposite the Postoffice, has received Harper's Magazine for October—an excellent number.

TAKEN TO THE REFUGE.—John Kelley, the lad who was recently convicted of the larceny of a carpet sack from the Union Depot, and sentenced to the House of Refuge, was taken to that institution yesterday by Deputy Sheriff Stubbs.

PEW HAT RACK.—Blake's pew hat rack is rapidly coming into general use. It is light, neat and durable, and no church is complete without it. Mr. Blake will put it up in churches for a very trifling sum compared with its great utility.

FOOT RACE AT OAKLAND PARK.—A foot race took place yesterday afternoon at Oakland Park, between John Newell and Henry Hawk, for a purse of three hundred dollars, and was won by Newell in twenty and a half seconds, he beating his opponent about nine yards.

NOON-DAY PRAYER MEETING.—The noon-day prayer meetings, under the auspices of the Young Men's Christian Association, will be reopened on Monday, the 30th inst., in the First Methodist Church, Fifth street, Rev. Alex. Clarke's. The attendance at the meetings during the fall and winter promise to be quite large.

RAN AWAY.—Yesterday afternoon two horses attached to a barouche became frightened on Market street, and dashed along that crowded thoroughfare at a fearful rate of speed. When they arrived at the Market House, the carriage came in contact with a post, demolishing the front portion of the vehicle, and injuring one of the horses very badly. The occupants of the barouche escaped uninjured.

METHODIST DEPOSITORY BUILDING.—The contract for the building of the new Methodist Episcopal Depository Building, to be erected on the corner of Smithfield street and Virgin alley, has been given, and the building is under way. The brick work of the building, it is expected, will be completed this fall, and ready for occupancy by next April.

WON THE PURSE.—At the races of the Erie Driving Park Association, on Thursday, John Watson, of this city, entered his bay mare "Mary Ann" for the trotting purse of five hundred dollars. There were four entries, and four heats were run. "Mary Ann" took the first heat in 2:32, and the third and fourth in 2:36 and 2:35, thus winning the race and the purse.

HELD FOR POSTAGE.—Letters directed as follows are held for postage at the Pittsburgh postoffice: P. D. McHardy, Jersey City, N. Y.; Knight & Warren, Cincinnati, O.; C. PASTORAL DONATION.—A number of the members of the congregation of the Third Presbyterian Church assembled at the residence of Col. Wm. A. Herron, on Penn street, on Thursday evening, and presented their pastor, Rev. Herrick Johnson, D. D., who is about to sever his connection with them, with several elegant and handsomely bound volumes of religious works. The present being unexpected, the Doctor was greatly taken by surprise, but returned his thanks in a few neat remarks.

"THE TRADE OF THE WEST."—This neat business publication for August has just been published, and contains the cards of a large number of our most influential merchants and manufacturers. Ten thousand copies of each number are issued, which are circulated through R. G. Dun & Co.'s mercantile agency. The present number is printed on new type of uniform style, and is from the press of James McMillin. Altogether "The Trade of the West" is a creditable publication, and its publisher, Mr. Wood, deserves commendation for the taste he has displayed in its arrangements.

BOAT RACE TO-DAY.—The race between the four-oared crews of the Duquesne and R. C. Howard Boat Clubs, for a purse of five hundred dollars, will take place this afternoon, between the hours of five and six o'clock, over the Allegheny river course. The distance to be rowed is three miles, the boats starting from the Suspension Bridge, going up the river a distance of a mile and a-half, and return. It will be remembered that several weeks since these clubs rowed over the same course, but the breaking of an oar by the stroke of the Duquesne crew lost them the race, and the Howard crew, willing to give the Duquesne another fair trial, agreed to row again, and the contest will come off to-day, as stated.

A PLEASANT OCCASION.—On Thursday evening a number of the youthful members of the Central Presbyterian Church, accompanied by Dr. Jacobus, the pastor, proceeded in a special train on the Connellsville Railroad to the residence of Col. Elder, at Brinton Station, where they met with a cordial welcome. An elegant supper was served, upon the conclusion of which Dr. Jacobus delivered a happy speech in response to a toast to his health, offered by W. W. Patrick, Esq. The Doctor announced that it was the anniversary of his birth-day, and that it was one of the happiest of his life. The evening was pleasantly spent in conversation, interspersed with music and singing, and at an early hour the party took leave of their hospitable entertainers and returned to the city.

A CASE OF ACCIDENTAL POISONING.—On Tuesday evening a lad aged twelve years, son of Mr. J. Emmel, proprietor of a hotel, corner of Ohio street and the Diamond, Allegheny, accidentally drank a quantity of corrosive sublimate, and made a narrow escape with his life. It appears that two bottles—one containing corrosive sublimate, and the other camphor—had been placed on a mantel piece in his father's house. The lad ... supposing it to be camphor, and drank a portion of it. The mistake was at once discovered, when Dr. Walter Ure was summoned, who applied the proper remedies and saved the lad's life. He was much better yesterday morning and at dusk had entirely recovered.

Gov. Geary and the "Boys in Blue."

We understand that the "Boys in Blue" are making arrangements for a suitable demonstration in honor of the brave and gallant General Geary, on the occasion of his arrival in this city. The record of the General as a soldier is such as to call forth the warmest admiration of every man who has honorably worn "the blue," and the soldiers will ... join in doing honor to one who has discharged his duty to his country with such signal ability, and won for himself a position of which any man in the nation might be proud.

These will be the only entertainments these distinguished artists will give in this city this season, as they are to open at Pike's New Opera House, New York, in November. The operas selected for this city are, "The Barber of Seville" and "Don Pasquale," which will be given in grand style by this really unequalled combination. Due notice will be given of the commencement of the sale of seats, which will take place at C. C. Mellor's, 81 Wood street.

The State Fair---The Entries.

We are gratified to learn that Mr. Longaker, the efficient Secretary of the State Agricultural Society, is now as busy as a nailer in entering articles for competition. The office, at No. 10 St. Clair street, presented a busy scene yesterday, and to-day and Monday the entries will be largely increased. Mr. F. D. Sower has charge of the arrangements on the grounds, and will assign places to exhibitors. The entries must all be made by Tuesday at noon. The prospect is that the exhibition will be one of the finest ever given in the State. All departments will be fully represented, and the public may depend on finding something worthy of examination and admiration at every step of their progress through the grounds. Gov. Geary will, it is confidently expected, be here in time to make the opening address. The fair opens on Tuesday.

A Republican meeting will be held at Braddock's Fields on Thursday evening next. Among the speakers on the occasion will be Major J. F. Slagle, B. F. Lucas and Thos. Howard, Esqs.

Republican Executive Committee--Gen. Logan--Meetings Appointed.

The Union Republican County Executive Committee held a meeting yesterday afternoon, at the office of Alderman Sutherland. In the absence of the Chairman, Col. Alex. Hilands presided. The committee of three, consisting of Gen. A. L. Pearson, Capt. W. B. Cook and D. B. Ferguson, who were appointed to visit Alliance, Ohio, with a view to secure Major General John A. Logan to address a mass meeting in Pittsburgh, returned yesterday morning. The Committee reported that they had waited on General Logan, who said that owing to previous engagements, he would not be free to make any promises until Thursday next, the 26th inst., when he would telegraph to the Committee and let them know his conclusions. The Committee reported the Union cause in Ohio as most flattering, and they were satisfied that the Buckeye State would roll up an increased majority for the whole Union ticket. The report was accepted and the Committee continued. The revised "Address to the Republican voters of the County," was submitted and unanimously adopted. It will be ready for publication early next week. Meetings were appointed to be held to-night at Tarentum and at Temperanceville; on Tuesday night at Lawrenceville, and on Thursday night at Braddock's Fields. After transacting some miscellaneous business, the Committee adjourned until this afternoon.

Black Mailing---A Significant Inquiry.

In the Court of Quarter Sessions, yesterday afternoon, the Grand Jury came in and made a special presentment, of which the following is a transcript:

"And now, September 20, 1867, the Grand Inquest come into court and represent that they have reason to believe that the practice of *black mail* on alleged criminal charges is systematically carried on by irresponsible parties, male and female, and large amounts of money have been extorted, and desiring to be informed by the Court whether it is in the province of the Grand Jury to prefer bills of indictment against such parties as have been guilty of this practice."

Judge Stowe made some remarks to the jury on the subject, but did not give them any special instructions, telling them that he would answer the inquiry by an opinion in a day or two. He remarked that he had a very decided opinion in regard to the practice alluded to, and he thought that in the case of a public officer the Grand Jury might indict, but if between private citizens the information would have to be made in the ordinary way. He declined, however, to instruct the Grand Jury definitely until he would investigate the matter.

It is hinted that this action of the Grand Jury was prompted by the developments in a certain bawdy house case, in which it is alleged that respectable gentlemen, under threats of being summoned as witnesses, were "bled" rather freely.

Public Amusements.

OPERA HOUSE.—At the family matinee this afternoon, the beautiful drama of "The Cricket on the Hearth" will be performed. In the evening Miss Charlotte Thompson will conclude her three weeks' engagement, and appear as "Mrs. Ormsby Delmaine," in the comedy of "The Serious Family."

Court Proceedings.

QUARTER SESSIONS—JUDGE STOWE.

The trial of the case of Alexander Moffitt, for conspiracy, on information of Isaac Thompson, was resumed Friday morning at nine o'clock.

The defense continued the examination of witnesses as to the reputation of Isaac Thompson, in the community where he lived, prior to May, 1866, as a dealer in counterfeit money, or being connected with counterfeiters. Messrs. John H. Smith, Major H. B. Vanvoorhis, Job Johnston, R. S. Stone, J. A. Nicholls, George Cox, R. D. Mares, Levi McCarty, Thomas F. Cook, Robert D. Arnold, D. F. Bower, Adam Hopkins, Elza Vanvoorhis, Joseph Nicholls, A. A. Hill, E. Hammond, Ezra Conway and James Reshall all testified that Isaac Thompson's reputation was bad.

Joseph Nicholls was called and the defense proposed to prove the specific act of dealing in counterfeit money, on the part of Isaac Thompson, while in the army, and to show a presumption at least that Moffit became acquainted with the fact, being also in the army at the same time. The preliminary questions were asked for the satisfaction of the Court, but it appeared that the witness and Moffit had never been in the same part of the army, and had no personal acquaintance at the time. The testimony was ruled out, or rather was not allowed to be given.

Atkinson Nicholls was called and testified as to a conversation he had with Isaac Thompson in 1854, in regard to engaging in the counterfeiting business. Thompson proposed to furnish the witness with the money, or have it furnished by Dawson or Wright. Witness was subpoened to testify, in the suit against Samuel Thompson, at Uniontown, but did not attend, because he could not do any good. In 1866, prior to May, he told Moffitt of the fact that Isaac Thompson had endeavored to induce him to engage in the counterfeiting business.

Taylor Dawson, son of Wm. Dawson, testified that his father had no new buggy that he knew of before he went away. He got an old buggy, painted up, from Samuel Thomson, which he sold before he left.

Thos. F. Bulger, testified that he was cashier of the Pacific and Atlantic Telegraph Company. Was not in the office in May, 1866. Original telegrams are kept on file in the office. "Telegrams shown." The only knowledge I have of these is, that they were found among the files.

Mr. Wilson, deputy under Marshal Murdoch, testified that the dispatches were in the handwriting of Marshal Murdoch, and that the Marshal had been in correspondence with Moffitt.

The telegrams were then offered in evidence, but the Court ruled them out on the ground that there was no proof to show that they had ever been received by the party addressed.

The defense here closed, and the Court took a recess for three quarters of an hour.

REBUTTING TESTIMONY.

When Court re-assembled the prosecution proposed to call witnesses to rebut the evidence tending to show the reputation of Isaac Thompson as a counterfeiter.

The defense objected, alleging that the offer was simply to prove a negative. A hundred witnesses might be called to testify that they had never heard rumors of Isaac Thompson having been engaged in connection with counterfeiters, and yet that would not prove that the witnesses who had heard these rumors were not to be believed, or that the rumors did not prevail at the time. In proving the bad character of Thompson, the defense only intended to establish the fact that Moffitt had probable cause in bringing the charge against Thompson, for doing which he had been indicted for conspiracy.

The objection was overruled by the Court, and the following testimony was elicited:

Hon. George V. Lawrence, (member of Congress,) residing at Monongahela City, testified that so far as he knew, prior to May, 1866, Thompson's reputation, so far as dealing in or passing counterfeit money was concerned, was good. He had heard rumors of his having been connected with counterfeiting business, but he supposed the talk came from Thompson's enemies.

John Hall, of Washington borough, E. R. Smith, Sheriff of Washington county, David Aiken, Louis Bell, Mr. Wyatt, John Berry, Samuel Bell, Mr. Alexander, D. R. Hazzard, Rev. D. P. Lowry, Joseph Welsh, Mr. Whitfield, Dr. Covert, and a score of others, were examined as to the good character of Isaac Thompson. The veracity of some of the witnesses for the defense, who had testified as to Thompson's bad reputation, was also attacked. The Court remained in session until five o'clock, and the case will be resumed this morning, in order if possible to let the witnesses return home to-day.

COMMON PLEAS—JUDGE STERRETT.

A. A. Anderson & Co. vs. John M. Fass. Action to recover the sum of $34 50 with interest from November 2, 1865, for printing a paper book in the case of J. P. Robitzer, administrator of Ann Gottsman vs. The Pennsylvania Insurance Company. The defendant denied that he ever ordered this work, or authorized any one else to get the book printed. The jury found for the plaintiffs the sum of $38 12—the full amount claimed.

The jury trials were adjourned until Monday morning at ten o'clock.

UNITED STATES DISTRICT COURT—BANKRUPTCY BRANCH.

In this Court yesterday Mr. Isaac Statton, of Lewisburg, Union county, who has been in the custody of the Marshal for a day or two, was admitted to bail in the sum of $25,000, to appear from time to time, and await such proceedings as may be instituted.

A CONTEST BETWEEN THE "MUFFS."

The "muffin nines" of the Enterprise and Allegheny Base Ball Clubs played a match game yesterday afternoon on the West Common, Allegheny. The match had been in preparation for some time, and as it was understood that the most inexperienced members of both clubs would constitute the "muffs," a large crowd of persons who anticipated unusual amusement were present. The playing commenced about three o'clock, and the spectators were not long in arriving at the conclusion that it was about the worst game ever attempted on the Common. During the early part of the game, neither side appeared to have the advantage, but after playing for an hour or two the Enterprise boys commenced to lead, and at the ninth inning were seventeen runs ahead, the score standing, Enterprise, fifty-five; Allegheny, thirty-eight. It was supposed by many of the spectators that the club making the fewest number of runs would be declared the victors, but the referee decided otherwise. The adepts in the game—many being present—were afforded much amusement at the unsuccessful attempts made to catch the ball "on the fly," most of the players exhibiting an unmistakable desire to keep out of its way. During the afternoon two young lads were struck by foul balls and severely injured.

THE PIONEER AND EXCELSIOR.

A match game between the Pioneer and Excelsior Clubs, for the Junior championship of Pittsburgh, will be played this afternoon at two o'clock at Oakland Park.

CHAMPIONSHIP OF BEAVER COUNTY.

A match game of base ball will be played at Beaver, this afternoon at one o'clock, between the Rough and Ready and Young Orphans, both of that place, for the championship of Beaver county. The game promises to be an exciting one.

Navigation on the Monongahela---Reopening To-day.

We were led into an error yesterday, in speaking of the time at which navigation would be fully resumed on the Monongahela river. The repairs to Lock No. 3 are entirely completed, and it will be in full operation to-day, and there will be no further interruption to travel unless low water should interfere. We are authoritatively informed that through business will be resumed to-day, and that the statement that the condition of Lock No. 3 would necessitate a transfer of freight and passengers at that point was incorrect. The re-opening of navigation, in view of the State Fair which will be held next week, will be hailed with great satisfaction by persons who are dependent upon the river for means of transportation.

TRUE BILLS FOUND.—The Grand Jury returned some sixty bills yesterday, twenty-five of which were "true," and thirty-five ignored. A true bill was found in the case of James B. O'Neill, charged with libel on oath of D. O'Neill, and also against "Bunty" Gillespie, for felonious assault and battery in stabbing Mr. Allison a few nights since.

Pianos.

Persons acquainted with the mechanism of a pianoforte would naturally suppose from the many points of superiority claimed by certain piano manufacturers and their agents, that *their* instruments possess certain improvements secured to them by Letter Patent, viz: The *full iron frame, Agraffe, Overstrung Bass, French Grand Action*, etc. Two American makers are each claiming to have received the FIRST Gold Medal at the Paris Exposition, while it is a well known fact that there were *five medals of equal value* distributed to exhibitors of Pianos at Paris, *no ONE being allowed precedence over another*.

To all who desire purchasing or wish to satisfy themselves that the claims above stated are without foundation in fact, are cordially invited to call at the piano warerooms of Barr, Knake & Buettler, No. 12 St. Clair street, and examine their new scale Schomacker and the Bradbury pianos, which they will find not only embody *all* the improvements claimed in Steinway, Chickering and others, but valuable inventions of their own, together with a superior quality of tone throughout. From fifty to one hundred and fifty dollars can be saved by the purchase in choosing these instruments. We attach three of their certificates of recommendation:

ALLEGHENY CITY, September 7, 1867.

Messrs. Barr, Knake & Buettler: I could not have secured an instrument that would have pleased me better, than the Schomacker I have purchased from you. After having played upon a great number manufactured by others, I consider it the *finest* in point of *tone* and *power* that has yet been offered to the public, and can heartily recommend it to all.

Respectfully yours,
J. D. WHITE, Dentist.

The Schomacker & Co. piano purchased from you has been in almost constant use in our Gymnasium for the past eighteen months, and it has proved itself, both in tone and durability, not only a good, but a *first class* instrument.

Respectfully, W. S. GRAY.

I consider my Schomacker Piano twenty per cent. better than when I bought it over a year ago. It has been accounted by many thoroughly competent to judge, *the best piano in or about our village*. I tested all the popular makes before purchasing, and consider the Schomacker not only the *best* but the cheapest *piano* I have yet seen or heard.

Yours, truly,
A. T. SHALLENBERGER, M. D.

Letter from Hon. E. B. Washburne,

Member of Congress, and Chairman of the Committee on Ways and Means:

PARIS, July 10, 1867.

MR. STEINWAY—*Dear Sir:* Permit me to avail myself of this occasion to congratulate you upon your eminent success in obtaining the *First* of the Gold Medals awarded to Pianos at the international Exposition in this city.

It is the more gratifying to every American citizen, as it seems to be understood that by your new system of piano-making, you have placed the United States at the head of this industry for the entire world.

E. B. WASHBURNE.

These famous Steinway Pianos can be found in this city at H. Kleber & Bro's, warerooms, 122 Wood street, who retail and wholesale them at Factory prices.

Oporto Grape Culture.

This country is becoming noted for the enterprise of wine growers, New Jersey, particularly, where the celebrated Port Grape Wine is made purely from the grape juice. The following letter from an eminent physician who lives in sight of Speer's vineyard, will be of interest to our readers:

PASSAIC, October 20, 1865.

I hereby certify that Mr. A. Speer, of this village, has a large vineyard of choice grape vines, which are looking very fine. He also purchases a great many grapes, not as yet producing as many himself as is required to keep his stock of wine full. He has the Port Grape, the wine of which is held in high estimation, and of which he has a large quantity on hand, lying in his cellars, requiring age before he disposes of it.

R. A. TERHUNE, M. D.

The above wine can be procured of our druggists.

OFFICE OF THE PACIFIC AND ATLANTIC TELEGRAPH COMPANY OF THE UNITED STATES.
September 19, 1867.

TO THE CITIZENS OF PITTSBURGH:

The Board of Officers of the Pacific and Atlantic Telegraph Company of the United States have great pleasure in announcing the opening of their lines to Cincinnati and Louisville.

In accordance with the equity which they believe should prevail between this corporation and the public in all charges for the transmission of messages over the wires of this company, they have ordered a reduction of rates from those heretofore customary between Cincinnati, Pittsburgh and intermediate points, and have also directed a reduction to be made in the rate to New York.

The consistency with which this company have endeavored to serve the public, not only by a prompt transmission of messages, but by endeavoring to reduce the cost of telegraphing entitles them to once more request from this community a continuation of that patronage which has so far cheered the Board of officers in their endeavors to establish a permanent independent telegraph line, which, while profitable to the stockholders, from the good will of the public, should be equally remunerative to the public from a steady cheapening of the cost for the transmission of messages.

President P. and A. Telegraph Company of the United States.

PETROLEO-CALCIUM GAS.

One of the most valuable improvements of the age is the process of manufacturing Gas by the

Petroleo-Calcium Gas Company,

OF WHEELING, WEST VIRGINIA,

Upon patents of Dr. J. H. Connelly, from an almost valueless product of Petroleum Oil, (*residuum*), in combination with *lime* or *lime and coal*, so simple that Two Thousand Feet of Gas may be made by any farm hand or stable boy of ordinary intelligence in three hours. It has been thoroughly tested upon such a scale, at the McLure House, in Wheeling, and at the country residence of Mr. J. P. Gilchrist, near the same city, as to fix the certainty of its affording entirely satisfactory results in the production of small and large quantities of Gas, and can be with great economy applied to *Private Residences, Seminaries, Hotels, Factories and Cities*. It is superior to any Gas now in use, not only as to the safety, simplicity, practicability and great cheapness of manufacture, but for its superior brilliancy, soft influence upon the sight, and freedom from the sulphurious odors common to Gas.

These facts the officers of the company will take pleasure in demonstrating to those desiring to adopt or interest themselves in it. The company will sell rights to manufacture in Towns, Counties, Districts or States, and direct attention to the following

TESTIMONIALS.

WHEELING, W. VA., August 6, 1867.

To the President of the Petroleo-Calcium Gas Co:

SIR—We have thoroughly and carefully investigated the construction and workings of the apparatus for manufacturing Gas, according to your company's patents, and the combinations of materials used, as now working upon the McLure House in this city, and country residence of J. P. Gilchrist, Esq., near this city. For simplicity, durability, economy and safety, we consider it superior to any other method of manufacturing Gas that we are acquainted with. We cheerfully recommend its adoption by all Gas consumers.

Very respectfully,
A. J. SWEENEY, *Mayor of Wheeling.*
W. W. MILLER & CO., *Union Foundry and Machine Works.*
WM. HARE, *Plumber and Gas Fitter.*
W. F. GOODWIN & CO., *Prop'r. M'Lure House.*
WM. A. TURNER, *Jeweler and Watch Maker.*
SWEENEY & CO., *Machinists & Engine Builders.*
WM. D. TERRY, *General R. R. Ticket Agent.*
LOUIS GAUS, *Proprietor M'Lure House Saloon.*

And refer by special permission to
JAS. M. CHRISTY, Esq., *Pittsburgh, Pa., formerly Treasurer City Gas Co.*
S. H. GOLDTHARP, Esq., *Gas Engineer, Pittsburgh, Pa.*

OUR CANDIDATE.

Hon. Henry W. Williams.

[From the Pittsburgh Post, June 28.]

WORTHY CANDIDATES.

"The nomination of Henry W. Williams as a candidate for Judge of the Supreme Court, is a good one. He was the best man named before the Republican Convention, and possesses legal and moral qualifications for the responsible position to which he has been nominated. Both parties have now presented their candidates. An important duty has been faithfully discharged by the respective conventions. The campaign may now be conducted without personal aspersions, and decided upon the principles of the two great parties. This is as it should be."

[From the Pittsburgh Post, August 29.]

If the notice of Judge Williams's nomination which appeared in the "*Post*" at the time, and now kept standing at the head of the Republican papers, is intended as a rebuke for any supposed inconsistency since, it fails in its purpose. We have nothing to take back or modify. Of Judge Williams's private or legal reputation we have nothing but words of praise, and however it may suit some pugnacious and heady politicians, we cannot bring ourselves to view personal assaults as either wise or politic. The Democracy plants itself upon principle and deals with facts, and discusses the public and official acts of candidates.

THE Democrats are pretending that they have made gains in the late elections, commencing with Kentucky and ending with Montana, aggregating 76,000, when the actual figures show that their entire gain is only two thousand. The story was concocted to influence the October elections, but it was set afloat too soon.

FOR the last few days leading Democratic politicians have been running to Washington for assistance to carry Pennsylvania for SHARSWOOD. The President has been appealed to to remove certain office holders and make other appointments in their stead to swell the Democratic vote. As a recompense a Democratic victory, and the indorsement of the President is promised. But the people will have something to say about the matter.

THE news from England represents that the published views of Gen. BUTLER and Mr. PENDLETON on our Finances have had a depressing effect on American securities abroad. Did the foreign public understand the American people better, more especially our public men, no such sensitiveness would be shown. There is little probability that, even if the gentlemen named really mean repudition, total or partial, they will ever be able to exert influence enough to cause a majority of our people to turn scoundrels.

A GOOD deal of interest is felt in England concerning the forthcoming volumes of the Queen in continuation of the "Early Days of the Prince Consort." The impression is that, to say the least, she is an erratic woman, and, in the estimation of some, no better proof is needed of this than the volume whose title has just been given. Should she continue to write with the freedom that characterizes her first volume, curiosity will be likely to have some interesting State secrets, touching public men, to feed on. The will of the Queen is illustrated in the fact that although several illustrous personages undertook to induce her to abandon the publication, she, like all women, had her way, and they were rather glad to retire from the field and let her continue to have it.

GEN. SHERIDAN's indorsement of Gen. GRANT is emphatic and perfectly unreserved. "He is all right—have no doubt of that—you can trust him to the fullest extent—you don't know him all through yet, but you run no risk in extending to him perfect confidence." The hero of Winchester has established his credit with the people to such an extent that if there were any need of an indorser of Gen. GRANT, nothing more would be necessary. There is something bordering on chivalry in the warmth of the friendship existing between these two men, scarcely less trusted for their management of grave civil affairs growing out of the war, than for their heroism in fighting it down. Neither speaks of himself, but each praises the other, and with a sincerity so genuine that the nation can do nothing but admire them both. And here is a good place to record a remark made by SHERIDAN, while in St. Louis a few days ago. He said he "regarded his administration of affairs at New Orleans as comparatively mild, and coming short of the standard required of him by Gen. GRANT, who, he said, favored the exercise of far greater severity, and if he (Gen. GRANT) had been filling the position himself, he would have adopted more stringent and rigorous measures."

STAND BY REPUBLICAN PRINCIPLES.

Those who adhere to the Republican party from principle, and not from sinister motives, will feel a double duty devolving upon them in the present canvass. They will realize more than ever the importance of standing firmly by the organization themselves, and at the same time doing everything in their power to prevent defection or disintegration. In every exciting primary contest, where the leaders of the party become enlisted in favor of this or that candidate, more or less disappointment is sure to follow. This is especially the case where it turns out that the party sentiment has been about equally divided. Disappointment must follow in the very nature of things; but, with all true Republicans, it is only such evanescent irritation as must speedily give way before the claims of party fealty, and under a sense of devotion to principles rather than men. It has been characteristic of the Republican party, especially in Allegheny county, where a nomination is equivalent to an election, to enter with great vigor and earnestness into the preliminary contests, and at the same time to yield a ready and cordial acquiescence in the will of the nominating convention, when fairly expressed. The initial struggle being ended, it has been our pride and boast that no seed of dissension or root of bitterness should be allowed to spring up to weaken our majorities or strengthen the numbers of our enemies. It has at all times been regarded as an imperative duty, incumbent upon each and every voter, to extend an active and willing support to the nominees, without regard to whether his individual wishes have been gratified or not. To do else is to throw off party allegiance and become disorganizers. It also exhibits a lamentable selfishness, and indicates that the person thus acting is governed by improper motives, and can only be relied upon to serve the party so long as the party serves him. Such Republicans, we are glad to know, are exceedingly rare in this county. There is no danger of our majority being reduced from this cause. An effort has been made, however, in the interest of political demagogues and disappointed aspirants for office, and countenanced in every possible way by Democratic leaders, to create a defection in our ranks. It is hoped to betray a few hundred voters into the folly of casting their suffrages for the Labor ticket, in the vain hope that some benefit not now enjoyed may hereafter be secured to them. There never was a greater delusion, or a more absurd idea. Every Republican vote cast for the Labor ticket is so much done toward the success of the Copperheads. Even the acknowledged leader and standard-bearer of the party in this canvass, in accepting his nomination, virtually admitted his defeat. The utmost he claimed fell far short of the number requisite for success, and his estimate was double or perhaps treble the strength of the organization. What folly, then, for Republicans to throw away their power and influence for a mere abstraction? What a base use do they allow themselves to be put to, in thus contributing to the success of the Copperhead ticket? Scarcely a single Democrat can be found among the trades organizations who will vote the Labor ticket. They may pretend to favor the movement, but such pretension is only a sham, and on the day of the election they will vote solid for the Democratic ticket. There is no fact plainer than this, and the result of the vote will prove the correctness of our assertion. But let us go a little further, and suppose that there is a prospect of success. Even if the Labor ticket were elected, nothing could be gained to the interests of the working man that he could not gain in the success of the Republican ticket. But should the new organization now or hereafter indirectly defeat the Republican ticket, and virtually secure the triumph of the Democracy in the county—which is nearer within the range of possibility than their own success—what would be their situation? They could expect nothing of the Republican party in the Legislature, and the Democracy would only spurn them with that contempt which they would deserve. In every conceivable aspect of the case, then, it is the plain duty of the Republican voters of Allegheny county, one and all, to stand firmly to the organization. Especially is it the interest of the workingmen to sustain the party which sustains the Government, sustains the principles of protection to American industry, and vouchsafes to every man, from the humblest to the highest, equal justice and equal rights, with the largest personal liberty. It is folly to attempt to build up a party on such issues as the proposed organization presents, and those who wish to save themselves the humiliation of having spent their time and money in a worse than fruitless endeavor, will stand aloof from it. We are well aware that by no possibility can our vote be reduced so as to effect the general result, but what we are anxious to guard against is any reduction whatever in the usual majority given in this stronghold of Republicanism. That fact would be sounded as a Democratic triumph all over the country, while no account would be taken of the Labor movement outside the limits of this county, to which it is exclusively confined. "Democratic gains in Allegheny" would be the cry, and the moral effect would tend to make capital for ANDREW JOHNSON and his infamous administration. Let no Republican, then, be beguiled into a betrayal of his party, but let each one stand firmly by his time honored principles.

The Tobacconists' National Convention.

The Convention of tobacconists in session at Cleveland, on Wednesday, adopted a resolution recommending in lieu of inspection and assessment that the Government provide stamps, to be paid for before using, provided the tax is reduced to the uniform rate of ten cents, the stamps to be so placed on each package as to preclude their second use. The Commissioner of Internal Revenue, it was resolved, should allow the actual shrinkage on tobacco that has been handled, when removed for consumption.

General Sheridan at Steubenville

Our correspondent at Steubenville, speaking of the impromptu reception Sheridan received there, says: "The crowd of men, women and children, was variously estimated from three to six thousand. No matter about the exact number, but we can certainly say that it was the most hearty demonstration of loyalty and affection that we have ever seen paid to any man here in Steubenville. Or, to use the General's own words: 'The warmest reception I have received since I left New Orleans.'"

AN attempt having been made to create prejudice against the editor of the *Evening Advocate*, who is a stranger here, by charging him with being a Kentuckian with secession sympathies, he makes the following emphatic, and we think satisfactory answer in yesterday's number:

"In response to this we would simply state, that, during our connection with the Louisville *Journal*, that highly respectable newspaper, while the recent war was in progress, was the organ of the Union party in Kentucky, a bold advocate of the war against rebellion, and a champion of anti-slavery views, our own views having been anti-slavery from early boyhood. We have never voted any other than the Union ticket from the time we became entitled to a vote. We struggled for the Union cause when and where it cost something, socially and politically, to do it, which can not be said of a writer who, while in a community where an all-prevailing public sentiment, in favor of the government, rendered him perfectly safe in every point of view."

IN Cincinnati Gen. Sheridan, in reply to the speech of welcome by Judge Storer, said he was grateful for the reception, and regretted he could not make a speech; whereupon Judge Storer rounded off the thing by remarking that it should be remembered that there have been two Sheridans: one the rhetorician, who wrote pages of eloquence; the other the soldier, who always made his mark—with his sword. And at that several thousands of people broke in with cheers such as the General had not heard since the welcome his soldiers gave him at the end of his famous ride to

"Winchester twenty miles away."

A FORGERY.—A communication from Franklin published in the COMMERCIAL of Tuesday, purporting to give the proceedings of a temperance meeting in that place, was a forgery. No such meeting was held, and consequently the gentlemen could not have been participants. Of this we are assured by General Blakely, a prominent citizen of the place. The communication was ostensibly sent to this office by Robert Law, whose name appeared in the list of officers.

THE *Financial Bulletin* has been discussing the gold premium question, and comes to the following conclusion: "Upon the whole, then, while political complications from abroad might possibly induce a limited and temporary drain of specie from this side, yet outside of those contingencies there appears to be no warrant for anticipating a high premium on gold during the next three or four months."

GENERAL INTELLIGENCE.

The New York Board of Health, it seems, have discovered certain marvellous medicinal properties in the waters of Gettysburg, Pa., and have accordingly ordered a supply, with a view to sanitary experiments. The virtues of these springs, it is said, were first discovered by the wounded soldiers after the battle of Gettysburg.

The California wheat crop this year is estimated at from twelve millions to fifteen millions of bushels. Deducting the usual average for home consumption, it will require a fleet of about three hundred and thirty ships to convey the surplus to a market.

The steamer Java, in her last voyage across the ocean, made the fastest passage on record. She steamed between Halifax and Queenstown in six days and twenty-one and a half hours, and on one day, the 4th of September, made 348 miles.

There is a Hamburg grape vine at Hampton Court planted in 1766. The vine is enclosed in a glass house and covers two thousand two hundred square feet, producing annually eight hundred pounds of grapes.

Australia is not alone in its superabundance of sheep, for at Hawke's Bay, says a New Zealand paper, the settlers have under their serious consideration the question of how to dispose of 70,000 to 100,000 sheep per annum. If they 'boil them down' they will realize a profit of 6s. per head; this is their only alternative. Their flocks are increasing, and the "old" sheep must make way for the new.

PERSONAL.

—The Newport (R. I.) *News* says intelligence has been received there of the decease of Mr. Tifft, a bachelor, leaving a fortune of $7,000,000 to be distributed among his relatives, some of whom reside in Newport.

—Miss Susan C. Godsa, of Hickman, Ky., has slept for eighteen years, except in a few intervals each day, lasting each five or ten minutes. She has been captured by a country fair, and her champions are ready to back her to outsleep anybody else.

—Gen. John C. Lee, Republican candidate for Lieutenant Governor of Ohio, is seriously ill, and has been compelled to abandon the canvass.

—Mrs. General Tom Thumb may often be seen promenading Broadway on a fine afternoon. She goes shopping to Lord & Taylor's and other places, just as any other lady is supposed to do. She dresses very neatly, wearing a black silk dress and basque, jockey hat, and dark kid gloves. Mrs. Stratton is never accompanied in public. So says the *Home Journal*.

—It is reported that the Harpers have entered into an arrangement to publish Henry Ward Beecher's sermons in book form. Meantime Scribner & Company announce a volume containing a collection of the prayers of the same gentleman.

—Mrs. Hendershott, the wife of the drummer boy, has been damaged to the amount of $10,000 by the running away of a team attached to one of the Missouri Transfer Company's omnibuses, at Omaha. Her youthful husband has commenced a suit for that amount.

—Mr. Putnam has received a letter from Mr. E. M. Stanton, permitting the use of his name in the list of contributors to the revived magazine.

—The London *Lancet* contradicts the recent reports of the failing health of the Princess of Wales, and states that since her arrival at Weisbaden her condition of health is of a satisfactory character, an announcement which is gratifying to all.

OUR CHURCHES.

Denominational and Personal Movements.

THE Western Seaman's Friend Society was organized on the 23rd of June, 1867. This is an organization designed to benefit sailors and steamboatmen who can be best reached in their own quarters by religious instruction. The different missionaries connected with the society are laboring faithfully in the lake cities and also in the principal cities and towns on the Western rivers. The work includes the truly christian accompaniments of family visitations, gathering children into Sunday Schools, *and relieving the temporal wants of the sick and needy.* The noble work is sustained by voluntary contributions from the people who have generally responded cheerfully when solicited for aid.

For some time Chaplain Dallas, who has for years been devoted to this kind of work, has been preaching every Sunday afternoon at 3 o'clock on board the boats lying in the Allegheny and Monongahela rivers about Pittsburgh, changing boats every week. The interest exceeds that of the Old Bethel, as larger numbers now attend the services.

Rev. J. A. Swaney, former pastor of Beaver Street Methodist Episcopal Church, Allegheny, is the Corresponding Secretary of the Association, and is now making his annual call upon our citizens for assistance. Under the existing circumstances, with river trade prostrate, and general business dull, he is meeting with great success. The Bethel work is so well known and its objects so praiseworthy that Pittsburghers are not appealed to in vain to support it. As there are now such rare opportunities for doing good in this direction, the people should the more liberally and cheerfully respond to the Secretary's call for help.

THE Young Men's Christian Association of Pittsburgh, in conjunction with the pastors of the different churches, have issued a call for a Union Christian Convention, to be held in this city on Tuesday, Wednesday and Thursday, October 22d, 23d and 24th. The call extends to all Christian denominations in Western Pennsylvania, Eastern Ohio and West Virginia. The object of the Convention is to promote activity and unity among the churches the coming winter in their methods of home evangelization; to devise means of reaching the poor and neglected with the Gospel; and to build up the Redeemer's Kingdom more strongly and gloriously in the hearts and lives of all believers. Arrangements are being made to secure free return tickets over the rail roads for all who attend, and to have the delegates comfortably entertained while in the city. No credentials will be required, and no test of orthodoxy applied, only to know that all are disciples of Jesus and willing to *work* in honor of His name.

THE Waynesburg *Republican*, in speaking of the Annual Address before the Literary Societies of Waynesburg College, delivered by Rev. W. B. Watkins, A. M., at the recent Commencement, says that, "as a part of the closing exercises of the school, it was largely attended and none regretted it who went. The research, profound good sense, and rhetoric, made up an evening's entertainment that we rarely have in this section." The Cumberland *Presbyterian* adds that "the address was purely scientific, and displayed much learning and research." Mr. Watkins has gained an enviable reputation as a lecturer, and his services are in constant demand.

WE have seen a superior photograph, taken during Conference week at Uniontown, by Messrs. Hare & Lingo, artists of that place, showing all the ministers and laymen who belonged to the Conference. The three central and prominent figures are Rev. Wm. Reeves, D. D., President of the Conference, Rev. John Cowl, ex-President, and Rev. George Brown, D. D., one of the founders of the church. Circling around these well-known faces, are other ministerial and lay members in equal prominence. The arrangement is one of the neatest we have seen, and the portraits most excellent. The pure mountain air of Fayette county is favorable to photographing, and the opportunity to group a whole Conference of Methodist preachers and delegates was happily improved by the skilful artists. The largest picture shows all the members in album-sized photographs, a medium size, copied, is about eight by twelve inches, and the smallest is suited to an ordinary album, yet giving each likeness with great distinctness. A key accompanies each picture, and Messrs. Hare and Lingo are prepared to supply any orders.

THE *Congregationalist* of Boston, one of the largest and ablest religious weeklies in the United States, has just been enlarged and changed to quarto form, and now stands equal in appearance to any of its contemporaries. This paper represents the solid orthodoxy of the Pilgrim Fathers, and has introduced as an emblem of this adherence to the faith, a picture of the Rock in its engraved title-head. The *Congregationalist* is a complete family paper.

REV. Herrick Johnson, D. D., having resigned the pastorship of the Third Presbyterian Church, will preach his farewell sermon to-morrow morning. In the evening he will preach before the Young Men's Christian Association, in the First Presbyterian Church. Dr. Johnson will be missed from the Pittsburgh pulpit. He has been a constant and arduous worker in the vineyard of the Lord, and has endeared himself to all. He will spend the winter at Marquette, where he will preach to a newly organized congregation as a supply. His residence in that northern latitude is for the benefit of his wife's health, and while sojourning there, he will be a blessing to the young church so favored as to secure his services.

REV. MR. DICKEY, pastor of the Fourth United Presbyterian Church, Allegheny, has returned from Europe in improved health, and resumes his labors with renewed energy.

REV. J. R. KERR, pastor of Ridge Street United Presbyterian Church, has also returned from Europe, and occupied his pulpit last Sabbath.

REV. R. A. BROWN, D.D., having accepted the Presidency of Westminster College, has resigned his pastoral charge in New Castle, Penn., where he preached regularly for seventeen years.

THE next annual meeting of the Beaver county Sabbath School Association will be held in New Brighton, October 10th. The address will be delivered by Rev. D. C. Crittenden, pastor of the Presbyterian Church, and a devoted friend of Sabbath Schools. The interest in this subject is an enthusiasm throughout the county.

THE Synod of Wheeling (O. S. Presbyterian) will meet in Wellsville, Ohio, on Friday, October 11th. The exercises will be opened with a sermon by a distinguished member of the Synod, and the exercises continue over the Sabbath.

THE Presbytery of Washington will meet at Wellsburg, West Virginia, on Tuesday, October 1, at two o'clock P. M. The question of a division of this Presbytery will then come before the body.

THE pastor of the First Methodist Church, Fifth street, will deliver a series of Sabbath evening lectures, beginning to-morrow evening, on scientific subjects suggested by Bible texts, as follows: 1. Sabbath evening, September 22d, *The Dew*; 2. Sabbath evening, October 6th, *The Light*; 3. Sabbath evening, October 13th, *The Rain*; 4. Sabbath evening, October 20th, *The Hail*; 5. Sabbath evening, October 27th, *The Rainbow*; Sabbath evening, November 3d, *The Snow*.

The object will be to show that the Bible teachings and doctrines are corroborated by the testimonies of Nature, and that the Scriptures will bear and be vindicated by scientific investigations.

THERE has just closed a very large and successful camp meeting, held on the Susquehanna Circuit of the Methodist Church, Pittsburgh Conference. The attendance was larger than that of any former occasion, and the results show a large increase of attention to religious matters throughout the community. There were between sixty and seventy conversions on the camp ground, and, best of all, these new converts are working for the Master in their homes and among their friends. Rev. James Robison, the pastor of the Third Methodist Church, Pittsburgh, was one of the principal preachers at the meeting, assisted by Rev. W. T. Wilson, pastor of the Circuit, and several others.

THE Second Methodist Church, on Wylie street, has secured the pastoral services of Rev. J. B. Graham for another year, this being the sixth year of his pastorate in the same church. The Sunday School has been reorganized under the care of Robert Marshall, Esq., former Superintendent of the First Methodist Sunday School on Fifth street, one of the most successful Superintendents in the city. The new Conference year opens brightly for the Second Church. The congregations are increasing in numbers and interest every Sabbath.

TRINITY CHURCH, Sixth street, will be opened, as usual, to-morrow for Divine service. In the morning at 10½ o'clock the Rev. Dr. Cole, Missionary to the Indians of Neshota Territory, is expected to preach. In the evening at 7 o'clock there will be the full choral service which is so deservedly popular, as the seats are free to every one. Strangers and members of other churches are cordially invited to come and unite in the service. Dr. Richey will preach. The Episcopal church through their City Missionary, Rev. Mr. Fuller, is holding service every Sunday evening at 7½, in Henry Hall, corner of Beaver and Washington streets, Manchester, and have met with flattering success. The citizens of Manchester and all who may have interest in the church are asked to be present.

$500 REWARD IS OFFERED TO any man who can present a good and satisfactory reason why Christian people (or those who manage for them) should give money freely—in some cases by hundreds and in others by thousands of dollars—for the decoration of their Church edifices, and then say they are "too poor," "too much cramped," when it comes to the question of spending $30 to $100 for supplying their house of worship, throughout, with an appendage to the pews, which every man is ready to say at once ought to be on all church pews, because indispensable to the comfort and convenience of a large class of the worshipers.

ry is told about the late W. Hope, the banker of Amsterdam, and one of his ses. He had bought a picture as a Rem- and given 2,000 guineas for it. Finding did not quite fit the frame, he sent for a er to ease it a little. While watching ration he remarked how wonderfully the was preserved, considering that it was two hundred years old. we have a touching story of an abused woman, it being nothing more nor less beautiful quarrel between Rev. Dr. Vinton, York, and his ward, Miss Wynn, that een in the courts. Their decision was the persecuted young woman, and shows either doctors, of divinity nor doctors of ave any idea what it costs to move in good y now-a-days:

s Wynn, the ward of Dr. Vinton, writes that her allowance from the estate of her father is wholly insufficient to cover her ses; that she is engaged in a wretched gle; that if she continues poor she will be pelled to work for her living," and "does uch care what she does, for money must ade somehow." The guardian shows that itgo was at the rate of six thousand dollars teen months, and that horseback riding cost his ward twelve hundred dollars a and contends that this expenditure is ex- gant, and not provided for in the will of he is an executor. Further, he replies letter of complaint that if a sojourn in and "the entree to the best society and the circle" involves such ruinous outlays, his should "retire to Jersey or some part of world where she will escape the tempta- of spending money."

other Sloan, editor of the *News*, and Heber imball, preached violent sermons lately st the Constitutional laws prohibiting po- ny. Both urged the Saints to disregard tyrannical laws. Kimball said he had ty children, who fifty years hence, would the Kimball family as numerous as the ber of the Saints.

This Machine takes the clay direct from the bank, (without the preparation, by soaking, necessary for "soft mud" machines), and tempers it thoroughly, pressing, in steel moulds, brick stiff enough to be packed up eight high in the yard as made. For cutting with the trowel, bearing hard usage, and making a strong, true wall, there are no better brick known. The cost of making them by this machine is from 95 cents to $1 10 per 1,000, according to the rates of wages. This we guarantee. CITY MATTERS.

PERSONAL.—Milton Alexander, of Washington Camp No. 77, of P. O. S. of A., the highest officer of the Junior Sons West of the Allegheny Mountains, passed through the city yesterday, en route to Williamsburg, Blair county, Pennsylvania.

ACCIDENT.—Mrs. Neely, keeper of a grocery store on Ann street, in the First ward, Allegheny, while crossing the street near the store, on Wednesday night, accidentally fell over a log, which was lying in the gutter, breaking her cheek bone and otherwise severely injuring her.

ANOTHER REMARKABLE CURE.—Miss Shuck, a resident of Mount Washington, three weeks ago was totally blind, the result of disease. At that time she applied to Dr. Aborn, 134 Smithfield street, and today her vision is completely restored. Her eyes are now bright and clear, and the wonderful rapidity of the cure in her case is another evidence of the distinguished surgeon's skill.

CONSOLIDATION.—The Titusville *Herald* in alluding to the proposed Consolidation of Pittsburgh, Allegheny and neighboring towns, says: "If the vote is in the affirmative, it will produce a city of 170,000 inhabitants or almost as many as Cincinnati contains. This consolidation should take place, as it would promote the interests of all the parts, and raise Pittsburgh to a place in the first class of cities in Pennsylvania. At present she ranks below Milwaukee, Louisville and Detroit when in point of fact if all the population which properly belongs to Pittsburgh were embraced in one municipality, the 'Iron City' would be larger than all three of them."

Police Intelligence.

[Before Alderman McMasters.]

SURETY CASE.

Thomas Ford brought suit yesterday against Jos. Alton for surety of the peace. The parties live in South Pittsburgh, and Ford alleges that Alton threatened yesterday to whip him, and he is afraid he will carry his threats into execution. A warrant was issued.

HELD FOR TRIAL.

Sarah Jolly and her daughter, Sophia Jolly, charged with keeping a disorderly house, had a hearing yesterday and were held in five hundred dollars bail each for trial.

[Before Burgess Barker, of South Pittsburgh.]

TWO CHARGES.

Thomas Sullivan was arrested yesterday, charged with assault and battery and surety of the peace, on oath of Michael Donahue. The alleged offenses were committed in West Pittsburgh, on the 16th inst. In default of bail for his appearance for a hearing this morning, Sullivan was committed to jail.

[Before Alderman Lynch.]

ASSAULT ON A BOY.

James Lewis was arrested yesterday and taken before this magistrate, charged with committing an assault and battery on the minor son of Mrs. Elizabeth Keepman. The parties live in the Diamond. The case was held for a hearing.

THREATS.

Margaret McCann charged Catharine Rooney with surety of the peace, in threatening to take deponent's life. A warrant was placed in an officer's hands for the arrest of the accused, who lives in Brownstown.

[Before Alderman Donaldson.]

TWO SUITS.

Amanda Duval made an information yesterday against Elijah Baker, for assault and battery. She alleges that the defendant came to her house on Spring alley, and beat and abused her.

Joseph J. Duval, husband of the above prosecutrix, also preferred a charge of surety of the peace against Baker, alleging that the latter made threats against his life. Warrants were issued.

[Before Alderman Strain.]

CROSS-FIRING.

Margaret Bossart and Mary Sweitzer, both residents of Fox alley, in Birmingham, entered cross-suits against each other yesterday for surety of the peace. Both cases were held for a hearing.

COUNTRY AND EASTERN BLANKETS—Just opened. Bates & Bell.

"Fine Feathers Ne'er Can Make Fine Birds."

The difference between "Barrett's Vegetable Hair Restorative" and most of the other preparations in the market is that the merit of Barrett's is *inside* the bottle, while that of the other is on the *outside wrapper*. It is not only a Restorative but it is a clean, healthy dressing, rendering the use of Bear's Oil (Lard) and Pomatums (Lard) entirely unnecessary.

MESSRS. J. M. BURCHFIELD & Co., the *cheapest* dry goods dealers in the city, are receiving a good many compliments from the crowds of ladies who have examined their unparalleled assortment of rich and elegant Fall and Winter Dress Goods, which they have been constantly opening for several days. Many of the fabrics and styles are entirely different from anything ever before shown in this market. In the new stock will be found French merinoes for only $1 per yard; all-wool Empress cloth for 75 cents; Plaid Poplins for $1; Plaid Silks for $1 50; Fancy colored silks very cheap; Wide black Mohair Lusters; Irish and French Poplins; Bleached and unbleached muslins; Irish Linens, warranted pure flax; Shirting, Flannels, clean blankets, etc. Go early to make your selections for people are buying as well as looking. E. corner of Fourth and Market streets. C. Hanson Love & Bro.

A Lady Raised from Her Bed.

A lady residing on Factory street had been given up to die with lung disease. Dr. Aborn, of No. 134 Smithfield street, was called to her case, and has effected a radical cure. The lady is now up, and about doing her ordinary housework. It may be well to mention that the lady was bed-fast, and had been for some time, when Dr. Aborn took her case in hand. This is but another proof of his remarkable skill.

FRENCH CORSETS.—We have a full stock of choice standard makes. Bates & Bell.

BURGLAR PROOF LOCKS will be exhibited at the State Fair.

NEW YORK, PARIS AND LONDON STYLES—Just received at Spence's Fashionable Cloak and Mantilla Emporium, No. 73 Market street.

CHIEF JUSTICE CHASE denies that he approved the course of President Johnson in removing General Sickles from the command of the Carolinas, on the charge of interfering with the Courts. But every one acknowledges that H. Oppenheimer & Co., Fashionable Merchant Tailors and dealers in Gents' Furnishing Goods, have the finest stock of goods in the city, at the lowest price. Call and examine. No. 83 Wood street.

Our Motto.

We use such Balms as have no strife
With Nature or the Laws of Life;
With blood our hand we never stain,
Nor poison men to ease their pain.

Our Father, whom all goodness fills,
Provides the means to cure all ills;
The simple herbs beneath our feet,
Well used, relieve our pains complete.

A simple Herb, a simple Flower,
Culled from the dewy lea—
These shall speak in touching power,
Of change and health to thee.

Thirty Dollars Reward

FOR WEAK LUNGS, use Dr. Sykes's Sthenothropic Respirer, or Lung Strengthening Breathing Tube. Hitherto Dr. Sykes has manufactured this tube for use in his practice, but feeling convinced that its use would be of incalculable benefit to thousands who do not need other treatment, he now offers it to the public.

It is a little glass instrument for breathing the common air in a manner which will expand and strengthen the lungs, strengthen the voice, strengthen the muscles, strengthen the whole body, and by increasing the breathing capacity, effectually *prevent consumption*, and do much toward curing that disease.

REMARKABLE CURES.

This entire column is devoted to the names and nature of the diseases of a few of the many thousand of cases of chronic and obstinate diseases of the Eye, Ear, Head, Throat and organs of the Chest, that have been cured by Dr. Aborn, of No. 134 Smithfield street, many of which had resisted the best of medical skill previous to applying to him, but under his peculiar treatment they have been restored in an incredible short space of time, and many of which seem to have been almost miraculous.

The *Gazette* justly says:

High Testimonials.

Seldom in the history of medical science hereabouts have so many marvelous cures been effected, as have marked the professional career of Dr. E. S. Aborn, the skillful physician and surgeon, whose office is located at No. 134 Smithfield street. His wonderful success in the treatment of diseases can only be attributable to his high knowledge of the human body and the ills to which it is heir. Knowing these things thoroughly, he makes direct war on the cause of his patient's complaint, and does not trifle away the time in which a cure should be effected, in searching out the disease. But we wander from our purpose, as we merely intended to give prominence to the following certificates.

A Blind Girl Made to See.

Miss Shuck, who resides on Mount Washington, was stone blind when she applied to Dr. E. S. Aborn, 134 Smithfield street, a few weeks ago. To-day her sight is completely restored.

Disease of the Chest Cured.

PITTSBURGH, September 17, 1867.

DR. E. S. ABORN, No. 134 Smithfield street—*Dear Sir*:—Being confined to office work for a series of years, I found leaning over the desk seriously affected my chest, causing sleepless nights, cold sweats, followed by shooting pains. Through your atomization process of reaching the organs of the chest, I have been so much relieved as to lead me in justice to you to send my testimony to its efficacy.

Respectfully yours,
M. G. CURRY,
Bookkeeper at McFarland & Collins' Carpet Store, No. 71 and 73 Fifth street.

A Man 74 Years of Age Made to Hear in Four Days.

I certify that I had been afflicted with a deafness and a constant disagreeable buzzing noise and sounds in my ear. When I applied to Dr. Aborn last Saturday I was so deaf that I could not hear a watch tick. After using his treatment for four days I find that I am relieved of noises and sounds, and can hear the ticking of a watch; I am seventy-four years of age.

JAMES SMITH,
Officer of the Court.

Another Remarkable and Speedy Recovery.

The following additional testimony to the efficacy of Dr. Aborn's treatment has been handed us for publication:

I have been afflicted with an affection of the throat and chest and pain in the side, accompanied by a constant cough, for eighteen months. My friends believed that I had the consumption, and acting upon the advice of one of them I applied to Dr. Aborn three weeks ago, and placed myself under his care. I gradually grew better, and am to-day quite restored to health and vigor. The cure has been a remarkable one, and I take pleasure in recommending other sufferers to call at once upon Dr. Aborn.

THOMAS S. SPEAKMAN,
Lock No. 1, Monongahela River.

A Deaf Man Recovers His Hearing in Five Minutes Time Under the Skillful Treatment of Dr. Aborn.

After suffering from deafness for upwards of five years without any relief, it gives me great pleasure to give publicity to the following fact: I applied to Dr. Aborn, at No. 134 Smithfield street, and in five minutes time he restored my hearing. The sudden restoration of my hearing causes me to feel as though I had been transported to another world. Persons afflicted as I have been should lose no time in calling on the Doctor. He is a gentleman of few words, but his successful treatment speaks louder than human tongue.

FREDERICK SHANER,
Harrison City, Westmoreland Co., Pa.

Hearing Restored After Six Years Deafness.

PITTSBURGH, Pa., August 23, 1867.

DR. E. S. ABORN.—*Dear Sir*: For upwards of six years prior to placing myself under your treatment (Saturday, August 17th) I was a great sufferer from the pain and inconvenience arising from deafness. Before leaving London for the United States, I had been treated by distinguished ear surgeons whose skill and experience did not avail in my case. Learning from the columns of the COMMERCIAL that your treatment was so mild and universally successful, I resolved to place myself immediately under it. Last Saturday I was so deaf that I could not have heard the ticking of a watch, even if placed against my ear. To-day—after the lapse of only one week since you took my case in hand—I find my hearing restored so that I hear distinctly, and am now in the way of complete and permanent recovery from the causes which produced my deafness.

Yours, truly, JOHN NOONAN,
Irwin street.

From Esquire A. B. Stevenson, Magistrate at Birmingham.

To the Public.—I certify that I had been severely afflicted for years with Catarrh of the Head, Bronchitis, Heaviness in the Chest, and Impaired Hearing. In this deplorable state I was providentially induced to apply to Dr. Aborn, at 134 Smithfield street. In ten days after commencing his treatment, I am most happy to acknowledge that I have almost *entirely recovered* from every symptom from which I had so long suffered. My hearing also is almost *entirely restored* to its original acuteness as the fruit of his skilled and scientific treatment.

A. B. STEVENSON.

Remarkable Cure of a Complication of Disorders.

HILLSVILLE, PA., July 29, 1867.

Dr. E. S. Aborn, No. 134 Smithfield street, Pittsburgh, Pa:

Dear Sir: I write a few lines to inform you of the results of your treatment in my complication of ailments. My eyes are improving and are nearly well. My hearing has improved, and the pain in my breast has been very much relieved, and, I think, in a short time, will be entirely eradicated.

Yours, respectfully,
JOSEPH DICKSON.

Hearing Restored in Five Minutes.

When I applied to Dr. Aborn, 134 Smithfield street, I was so deaf in my right ear that I could not hear my watch tick when pressed against it, and had been so for years. *In five minutes time he restored my hearing*. Now I can hear my watch tick at a distance of eight inches. This I consider a remarkable cure.

A Lady Restored to Health.

When I placed myself in the hands of Dr. Aborn, nine days ago, I was so prostrated from a complication of Diseases of the chest that I was scarcely able to move from my bed. My appetite was entirely gone. My stomach was so diseased that it was almost impossible for me to retain a tablespoonful of gruel. My liver was alarmingly deranged. A constant pain in my head, chest, side, back; in fact, life was a burden to me in this suffering condition. Indeed, I was fast merging to an early grave. But thanks to the skillful hand of Dr. Aborn, I am once more restored to former health. As soon as forty-eight hours after commencing his medicines I found a change taking place in my system. So speedy, successful and satisfactory has been the effect of his remedies in my distressing disease that in justice to him and that the poor afflicted may know where to find a true and scientific gentleman, I have cheerfully made known the fact concerning my case.

Dyspepsia and Disease of the Liver Cured.

Six weeks ago I applied to Dr. Aborn, at No. 134 Smithfield street, with painful affection of the chest. For two years I had been afflicted with dyspepsia and liver affection. I was very weak and reduced in flesh. During the brief period of six weeks under Dr. Aborn's new treatment I have quite recovered, and gained my former strength.

From an Optician.

Mr. Wm. N. Ogden, Optician, No. 50 Fifth street, well known to the citizens of Pittsburgh, is mentioned by permission, as having been successfully and scientifically treated by Dr. Aborn, of No. 134 Smithfield street, in a severe case of disease of the eye, and to whom Dr. Aborn respectfully refers.

Successful Treatment of the Ear.

Editor Commercial:—DEAR SIR:—I made known through the columns of your paper in October last, that Dr. Aborn had restored my hearing and removed a constant disagreeable buzzing noise from my ears, by one operation, in five minutes time, without cutting, probing or producing a particle of pain. It gives me a peculiar pleasure in restating the fact, and that the cure is permanent. I cheerfully state that the Doctor, apart from his extraordinary skill, is a gentleman of candor. Not like many whom I consulted previous to calling on him; he makes no extravagant promises for the purpose of inducing patients to place themselves under his treatment. Having given indubitable evidence of his skill, he leaves it to the patient to decide whether or not he shall have his services, which a reasonable person certainly will appreciate. My residence is in Jefferson county, Pa. When in the city of Pittsburgh, I stop at the St. Clair Hotel.

A grateful patient,
HENRY BROWN.

Granulated Sore Eye Cured.

I have been afflicted for a long time with a sore eye, which had baffled all ordinary treatment. Having heard of the successful treatment of Dr. Aborn, at 134 Smithfield street, I was determined to give him a trial in my case, and it gives me great pleasure to say that he has performed a perfect cure in seven days. Persons suffering from a disease of the eye will find Dr. Aborn one of the most skillful surgeons in the United States. He does not torture you to death in trying to cure you, but his manipulations are done with great skill and with soothing effect.

JOHN WARNER,
284 Ohio street, Allegheny.

NOTE.—Dr. Aborn devotes especial attention to the treatment of all diseases incident to the Eye, Ear, Heart, Throat and organs of the Chest. Will be professionally at his rooms, No. 134 Smithfield street, from 9 A. M. to 4 P. M.

"Onward, Right Onward,

Into the valley of death—rode the six hundred." But larger, by hundreds multiplied into millions, than the doomed band who rode to swift destruction in Tennyson's poem, is the great cavalcade of unhappy beings who are riding into misery, worse than death, hugging that fearful disease, Fever and Ague, when by the use Mishler's Celebrated Herb Bitters, they might, each one, be forever relieved from it, and their physical organization become thoroughly improved by means of a purified blood and healthy condition of the stomach. The legitimate result of using Mishler's Celebrated Herb Bitters is to ward off Fever and Ague where it is likely to make its appearance, and to effect a radical cure in cases where it has already gained a foothold. It makes no difference how long the victim of this disease has suffered from it, nor how violent the disease itself may be, we are prepared to furnish indubitable evidence that Mishler's Celebrated Herb Bitters will cure it. It is inevitable from the very nature of the medicine, hence there is no longer any need of suffering. Send to your nearest druggist for these invaluable bitters. Branch House, No. 26 Market street. Wear and Tear.

When the constitution is weak and the system depressed by the *wear and tear* of business life, which makes such tremendous drafts upon the body and mind, unless some healthful and strengthening tonic is resorted to, prostration will ensue, and disease creep unawares upon the victim of negligence. But if

HOSTETTER'S STOMACH BITTERS,

which is a genial and purely vegetable stimulant, be timely administered, the organization will resist and baffle the veins of epidemic and changes of temperature incidental to this season of the year, which disorder the nerves of the feeble.

There is an active and permanent vitality in this remedy, which will prove of great benefit to the broken down and shattered constitution. It is the only tonic of which the stimulating principle is perfectly pure. Its basis is the essential principle of sound rye, which is admitted by analytical chemists to be the most harmless of stimulants, and this fluid is refined from crudities which belong to it as it comes from the manufacturer. The other ingredients are composed of medicinal plants and herbs, and contain not one harmful element in all their composition.

FINANCE AND TRADE.

FRIDAY EVENING, September 20, 1867.

The demand for money to-day at the banks and private banking houses was comparatively light. A large proportion of the offerings at the banks, we are informed, are renewals, which, as usual, does not leave much room for new paper and none at all, scarcely, for new customers.

—Government Bonds are on the decline. The foreign holders of these securities have become alarmed at the late speech of Gen. Butler, advocating the payment of United States bonds in currency. The New York *Bulletin* says a cable dispatch was received inquiring whether such a speech had been made by Gen. Butler; another dispatch inquired whether the payment of the United States bonds in currency is being made a *political issue*. The foreign houses wait with some anxiety to see what is likely to be the effect of the Massachusetts politician's utterances. It is understood that ex-Mayor Barrett, of Washington, next week commences to "stump" Maryland on this issue, taking the affirmative side. These, with other recent utterances upon this question, are exciting considerable interest, not to say uneasiness among the holders of public securities.

—The *Commercial Advertiser* of yesterday afternoon says: Governments begin to yield under the increasing stringency of the money market. This morning the market opened with a strong seller's movement. The *bears* hammered the market freely, and prices yielded ¼@½ per cent. upon the gold bearing bonds. Seven-thirties are sustained by the Treasury bid of 107. The foreign bankers have been free sellers. As yet there is no important amount of securities coming in from the country, the realizing movement being principally on the part of dealers.

—The *Independent* remarks that it is impossible to mix much with financial men without discovering that the party in opposition to our national bank system is rapidly growing, and to arrive at the conclusion that it will soon become sufficiently powerful to make itself felt in our political contests. When Democrats at the West, like Pendleton and Vallandigham, and Republicans in the East, like Gen. Butler, utter similar opinions on this important subject, it is a sign that something is going to happen. The national banks should take the hint in season.

—The Railway stock list is weak, and lower range of prices are constantly occurring. An exchange observes that "the unwillingness of the bears to sell stocks short, particularly railroads which show largely increased earnings, and the willingness of the bulls to carry the stocks they have loaded up, favor the probability of a much higher market during October; and the even chance of an abundance of money tends to encourage this feeling. Erie railroad, for the present, is weak, and has but little influence on the rest of the market; but it has a way with it of producing violent changes, and it is well to keep an eye on it, and particularly on its 'speculative director.'"

—A writer for an exchange paper, a short time since, referring to the subject of "national credit," presented some curious figures as going to show the much greater superiority of the credit of the British government, over that of our own. "Bearing in mind," he says, "that the rate of interest is the price paid for loans, the certificates for which are Government bonds, it will be well to notice the latest cable quotations, and we there find British consols quoted at 94⅝, and United States five-twenties at 74½, the former paying three per cent. on each £100, sold for £94 12s 6d; the latter, six per cent. on each £100, sold for £74 10s. The investor of £100 in British consols receives a yearly interest of £3 17s per cent.; the investor of £100 in United States five twenties receives £8 16s per cent., the latter paying interest in the ratio of 2.57 per cent. to 1.00 of the former. That is, that the credit of the British government is more than two and one-half times as great as the credit of the United States. We are not now speaking of the respective resources of each country, or of their ability to pay, but of the marketable value of the credit of each.

"Let us further illustrate this matter by reducing the market value of each government stock to the ratio of three per cent. interest, and the quotations would be, British consols, 94⅝, United States five-twenties, 36 82 100."

—S. S. Bryan, Broker in bonds, stocks and real estate, Apollo Building, Fourth street. Mortgages bought and sold. Orders for the purchase and sale of stocks and bonds executed in New York and Philadelphia at the rates of commission current in those cities.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY, September 21, 1867.

BUSINESS—Yesterday may be set down as one of the dullest days of the season. Sales could not be made at anything like the figures that were current the previous day. Buyers absented themselves and were not on hand. The dispatches from the East and from across the water did not read right—the figures were not to suit their expectations, and the result was dealers decided not to purchase, hence we have only two sales to record. The fact is the market is nearly bare of oil. Many lots here have changed hands several times. Dispatches from Oil City say the market was firm, with sales at $4 30 ₱ barrel. The only sale of Crude that came under our notice was 1,200 barrels bulk, first rise of water, at 12½c ₱ gallon. We did not hear of any offers for spot oil.

REFINED OIL.—The market was very dull. Buyers were inclined to hold off. There was no inquiry for spot oil. We did not learn of any offers. For September we quote nominally Standard White, Philadelphia, September, 33c; October, 34c, and for the last three months 34c. The only sale reported was 500 barrels for November delivery, B. O., at 34½c ₱ gallon. The advantages of the market were decidedly on the side of buyers.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY EVENING, September 20, 1867.

BUSINESS—The market since our last was devoid of activity. Buyers were disposed to purchase very sparingly. So far as relates to prices we have but few changes to notice. Produce—The receipts were not large, neither was the demand very extensive. The resumption of navigation on the slackwater will no doubt improve trade on the upper part of the landing. Flour was firm, with a good demand for home purposes. The advance of 25c ₱ bbl has been maintained. Bacon—We continue to notice a firm market with numerous buyers at current rates. Ashes were in fair demand, but prices have undergone no quotable change. Butter was active and wanted at a further advance. Whisky was steady at prices that were current for some days. Grain was active with a good demand for the various kinds. The receipts have fallen off during the past few days. The receipts of a portion of the leading articles were as follows: Flour 838 barrels; Apples 151 barrels; Cheese 65 boxes; Corn 177 sacks; Wheat 1,395 sacks; Barley 903 sacks; Rye 589 sacks; Oats 762 sacks; Butter 18 packages.

SALT—The market was steady but not very active. Prices gave way with sales of 2 car loads at depot at $2 25; when delivered $2 30 ₱ barrel was obtained.

POTATOES—The market has undergone no reportable change. Sales of 150 bushels Neshannocks at 80@85c; sales 35 barrels Jersey Sweet at $5 ₱ barrel.

EGGS—Owing to a falling off in the receipts, holders were firm at 22c; sales to the extent of 10 barrels were reported.

BUTTER—The market was active with plenty of purchasers at current prices. Among the sales were 300 lbs keg at 25c; 65 packages choice at 30@32c and 45 at the same range of prices.

LEAD—Steady; sales 400 pigs at 10½c.

ASHES—We have nothing new to notice in regard to this article; sales 8 tons pearls at 13c; soda ash—sales common at 5c and refined at 5¼c ₱ lb.

LIME—Steady with sales of 100 bbls at $2 00 ₱ bbl.

CHEESE—The market contains a good supply; the current rates were: Goshen, 15c; Factory, 14c; Hamburg, 13c; Western Reserve, 12c ₱ lb.

APPLES—The market has undergone no particular change. Sales were made at various prices, according to quality and condition, ranging from $2 50@3 50 ₱ bbl.

HAY—The supply keeps pace with the demand, and we note sales 17 loads at scales at $15 00@19 00 ₱ ton.

FEED—The market contains a fair supply. Among the sales were the following: 10 tons seconds $1 45, and 10 tons shorts at $1 10 ₱ cwt.

BACON—The firmness we have heretofore mentioned has been maintained. The sales are to a fair extent at the following figures: Shoulders 15c; sides, ribbed, 17½c; clear 18c; S. C. hams 23@24½—a further advance.

DRIED BEEF—We note regular sales at 23@24c ₱ lb.

LARD—Steady, with sales at 14c ₱ lb.

WEEKLY REVIEW OF PIG IRON AND BLOOM MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY, September 21, 1867.

CRUDE IRONS.

We have no change to note in the general character of the market for crude irons. The iron mills of the city having generally resumed operations, at least partially, the consumption of crude irons is now in excess of current receipts. Supplies of the better grades of medium class of Forge irons are scarcely adequate to the demand, stocks of two or three favorite brands being entirely exhausted.

Whilst under the influence of light receipts, the general tone of the market is firm, there is a total absence of speculative feeling, and purchases are confined to current consumptive wants.

The relative low rates for merchant bars and nails leaves scarce any margin for mill owners to operate on.

The sales of the various qualities were as follows: Anthracite 800 tons; Bituminous coal smelted from L. S. ore 1,157 tons; Charcoal 190 tons. Total 2,147, against 2,700 tons last week, a falling off in metal of 553 tons.

RIVER TELEGRAMS.

Louisville.

LOUISVILLE, September 20.—River stationary, with twenty-eight inches water in the canal.

Memphis.

MEMPHIS, September 20.—The river is falling.

RIVER NEWS.

SPECIAL NOTICE.—The People's Line packet Chieftain, Captain Hendrickson, leaves to-day at 5 P. M., for Brownsville and way points. Passengers and shippers can rely on this.

THE Cincinnati *Enquirer* says: Captain Donaldson has decided that he will not allow the Great Republic to be hauled out on the ways at Mound City.

MEMPHIS, September 18.—There is a heavy rain this evening. The river is still falling. Passed down: Tate, for New Orleans. Passed up: Ezra Porter, for Cincinnati. Business very dull. Cotton coming in very slowly.

THE National is now plying the New Orleans and Vicksburg trade, in the place of the Magenta, and in charge of Tom. Leathers. The latter boat is in New Orleans; but, being an expensive thing to run, times being dull, and the yellow fever prevailing, she lies up to the bank, and the National takes her chances.

TRADE ON THE SLACKWATER RESUMED.—The boats of both lines—the Mail and the People's—will resume operations this day. This will no doubt be gratifying to a large number of persons, particularly to those who have been shut off from communication with this city for some weeks. The good time has come, long may it continue.

THE Keokuk Packet Company has chartered the City of Pekin and Schuyler from the Illinois Packet Company, and are getting them and the Kate Kearney ready for the low water campaign in the Keokuk trade. They will be in charge of old officers of the Keokuk packet line. The Pekin will probably leave this afternoon.

MADISON.—The *Courier*, of Monday, says: J. C. Crossley has finished the cabin of the C. T. Dumont, and she is now in the hands of the painters, Messrs. Peddle & Neill. The Dumont has been put into the hands of the painters nearly a week in advance of the specified time. She will soon receive the finishing strokes, and take her accustomed place in the Madison and Cincinnati packet trade.

LOUISVILLE, September 18.—The river remains about stationary with 26 inches in the canal. Twenty-two inches are reported on Portland bar. The ferries have great difficulty in making trips. Thirty inches are reported on the lower bars. No boats up or down since Monday, except the Palestine. The Rose Hite and Bertha are aground at French Island, and the Minneola was on the bar on Tuesday night. The regular packets are all behind time.

SPECIAL NOTICE.—The Mail Line will commence receiving freight this morning for Brownsville, Geneva and way points, at least so Mr. Moorhouse, the attentive agent, informs us, another known all over the same. The fine packet Franklin, Capt. Carmack, will leave the company's wharfboat, above the bridge, this evening at five P. M. Be on board in time, as she leaves punctually.

IMPORTANT TO STEAMBOATMEN.—The locked safety valve America, Captain Russell, the agent for this valve is now in the city, and will take pleasure in exhibiting this important invention to parties interested. Through the politeness of Inspectors Walker and Atkinson we were introduced to Capt. Russel who kindly explained the working of the valve. The valve is now at the Inspectors' office where parties interested can call and examine for themselves.

DAVENPORT.—The *Gazette* says: We are requested by Gen. Wilson to state that in consequence of the erection in the channel on the upper rapids of a coffer dam, made necessary by the improvements now in progress, that navigation will for a time be rather dangerous. The risk to steamboats by being forced out of the channel should deter the owners from attempting to run the upper rapids at present or until further notice.

A SAD affair occurred on the down trip of the Davenport. J. B. Smith, her watchman, and some of the negro roustabouts quarreled, and while two negroes held Smith, another dealt him a powerful blow on the head with a billet of wood. Smith was left at Louisiana in the care of a surgeon, and is not expected to recover, as it was thought his skull was fractured. He was all season on the Davenport. Two of the roustabouts were arrested here as accessories.

CAIRO, September 18—7 P. M.—The Louisa brought Mississippi, 90 packages sundries for Cairo; 27 bbls whisky, 124 bbls apples and flour, 25 coops of chickens and 25 tons sundries for reshipment South. The Webb and Paducah packets left this trip. The Webb reported the Southerner, Lady Gay and Henry Ames, up stream boats, aground at Phillips. The Fanny Brandeis has 20 tons of produce and sundries for reshipment South. The river fell five inches to-day. Clear. Mercury 90 deg.

EVANSVILLE, September 18.—Nothing new in river circles. Weather hot. River falling steadily and literally drying up. Small boats are passing up in front of the city. No arrivals except the short line packets from Cannelton and Henderson. The Phantom, for Eastport, had all she could carry safely—perhaps more. The Tilling Goldy had left for Cairo with considerable freight. The Ollie Sullivan left the Bertha on French Island last evening, and the Minneola at the bank above. No news from any point below.

WE had the following notice in the Brownsville *Clipper*:

The beautiful little craft, steamer Active, drawing only ten inches of water, splendidly finished and arranged for passengers as well as freight, being designed to run between Brownsville and Morgantown, and at certain times, from Morgantown to Fairmont, and above, when the water will admit, made a trial trip to Lock No. 4 on Saturday last, and is said to have behaved in the most satisfactory manner.

We were tendered a polite invitation as one of the guests, but were unable to join the company, who, we understand, were delighted with the trip, and especially with the good things prepared for the occasion by Chetland & Lenhart.

ST. LOUIS, September 18.—Yesterday was one of the dullest business days of the year, on the wharf. The low water is one of the causes, there being no arrivals of boats due and past due, and those that did arrive bringing only partial cargoes. Some of them carry hardly freight enough to pay for the passengers. The rivers are going down at Phillips, the shallow place below Cairo. It appears to the officers of the City of Cairo that the lower crossing was about ten inches lower than it will be able to pass through the upper way, which will give to loaded steamers a fine stage of water. The barge system of transportation to New Orleans is passing through a severe ordeal. The Atlantic people have decided to procure barges to compete with the Mississippi Valley Transportation Company, and counteract its influence, as the latter actually controls the freight rates to the New Orleans trade. The Atlantic company yesterday and Monday bought five barges at Cincinnati.

CINCINNATI ITEMS.—Thursday's *Commercial* says: Messrs. N. & E Parker have sold two of their barges to David Gibson & Co. It is reported they paid $2,000 for the two. They will receive a little freight for New Orleans, and leave for Cairo on Saturday, with a towboat, in charge of Captain Lew. Kates, where they will be used by the A. & M. S. S. Company.

The Ida Stockdale, for Omaha, passed Goodin's Coal Banks on the 18th.

Captain A. C. McCallam left for Pittsburgh in last night's train.

The R. C. Gray is loading for Memphis, at Louisville.

Captain Pink Varble is the purchaser of the Ida Rees. She was yesterday taken to Louisville by pilot Ed. Chapman, where she will be used for transportation purposes in the construction of the new bridge. Her freight was turned over to the shippers.

The Wild Duck will not load for St. Louis, as announced yesterday in some of the papers.

Across the Sierra Nevadas.

THE CENTRAL PACIFIC RAILROAD, THE WESTERN HALF OF THE Great National Trunk Line Across the Continent,

Being constructed with the AID AND SUPERVISION OF THE UNITED STATES GOVERNMENT, is destined to be one of the most important lines of communication in the world, as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense Overland travel must pass, and the

Principal Portion of the Main Stem Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running order to the summit of the Sierra Nevada. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31, are as follows in GOLD:

Gross Earnings	Operating Expenses	Net Earnings
$487,579 64	$86,548 47	$401,031 17

Or at the rate of two millions per annum, of which more than three-fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road. The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges. Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 850 miles $28,592,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 Acres of the Public Lands. By becoming a joint investor in the property with the Company, by taking its first lien in favor of the First Mortgage Bondholders, the General Government, in effect, invites the co-operation of private capitalists, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year Six Per Cent. Coupon Bonds,

Principal and interest payable in Gold Coin, in New York city. They are in sums of $1,000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added, in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the first lien upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guarantees of the Pacific Railroad Act of Congress, and have in addition several noticeable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions, and others, as an eminently sound, reliable and remunerative form of permanent investment.

Conversions of Government Securities INTO CENTRAL PACIFIC FIRST MORTGAGE BONDS now realize for the holders from TWELVE TO EIGHTEEN PER CENT. ADVANTAGE, with the same rate of interest.

The following are the current rates (September 9th), subject, of course, to slight variations from day to day. We receive in exchange:
